When a group in this report has 10 or fewer students, showing the achievement information may risk an individual student's anonymity. In these cases, we do not report any achievement results for that

group, and you will see the * symbol instead. Likewise, when all students in a group score at the same performance level, reporting "100%" or "0%" would violate each student's anonymity. To protect students' anonymity, we report the percent passing as ">98%" if either 99% or 100% of students in a group pass, and we do not report the breakdown for each performance level. Likewise, we report the percent passing as "<2%" if either 1% or 0% of students in a group pass, and we do not report the breakdown for each performance level.
