

June 2017 Newsletter

Classroom Activities

K-2nd Grade Classroom

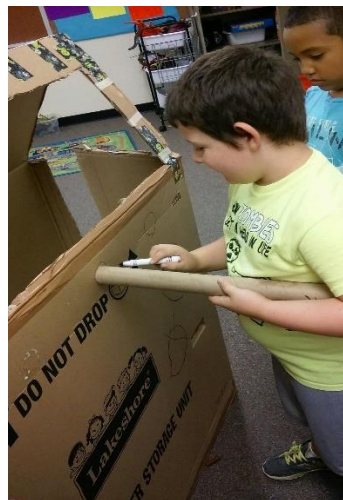

Kindergarten through 2nd graders have made many projects. Today I will tell you about ***time machine*** and ***pirates!***

Time machine

The kids enjoyed making the *time machine*. They especially enjoyed talking about what you would need (supplies) to time travel. They also talked about where (or when) they would go and what they could use to make it. They used cardboard to make the metal frame.

Pirates

One of the most recent projects was *Pirates*. They made a big ship and each child was able to paint. Just like the time machine, they used cardboard to make other things. They also talked about “pirate gear” and even made some, like eye patches and hooks.

Students dancing along to *Just Dance*.

Upcoming Events

July 4th: No Summer EdCamp

July 11th: Great Arizona Puppet Theater visits

July 18th: The Fly Guy visits

July 25th: The AZ Science Center visits

Upcoming Themes

July 3rd-7th: Trip Around the World

July 10th-14th: Fairytales

July 17th-21st: Hawaiian Luau

July 24th-28th: Under the Sea

July 31st-Aug. 4th: Wild West

3rd-8th Grade Classroom

I am here to inform you about the present activities, although I could also tell you about the past and present.

Time Machine

Thanks to KidZone Scientists, we have successfully created a time machine. We used cardboard to represent parts of the time machine and talked about what we might need. All scientists presented their time machines and explained how they worked.

Lego City

In the city, each child made his or her own section of the city. We all learned how to keep the building strong and sturdy while still having designs and making it strong.

Sand Castles

Children discovered how to make the sand castles strong. They also added special features like flags and moats.

In the Community

Westgate Firework Festival

July 4th starting at 9pm:
Includes music,
entertainment and dinner
deals
