## WHAT IS MET?

The MET Professional Academy is designed to motivate students by treating them as working professionals and preparing them for post-secondary education and careers in high demand STEM fields.

Students are immersed in a professional setting and gain valuable experience working with industry professionals who help them learn through authentic projects and work experiences.

## CHOOSE MET BECAUSE...

- ◆ You want to work on real projects while earning college credit in high school.
- ◆ You are interested in developing professional skills that will enhance your leadership potential and marketability.
- ◆ You want to experience a professional work environment with peers, college and business partners.
- ◆ You are open to new possibilities...
