MET MEDICAL INNOVATIONS

IN THIS PROGRAM, STUDENTS WILL:

- Realize their strengths and passions by exploring careers in medicine and biomedical research
- Gain knowledge and skills through hands-on, project-based learning in a clinic setting using industry-standard diagnostic equipment and medical tools
- Cultivate professional skills critical to success in all college and medical career endeavors
- Earn up to 20 college credits through Grand Canyon University
- Develop clinical skills through mock medical procedures and simulations
- Experience behind-the-scenes clinical simulations
- Prepare for medical degree pathways through college-level health science coursework
- Learn from real physicians, surgeons, medical specialists, biomedical researchers, nurses, physician assistants, nurse practitioners and medical educators
- Dissect a real cadaver, practice suturing and casting, apply differential medical diagnoses
