## SUMMER PROGRAM OVERVIEW

The main purpose of our summer program is to introduce our philosophies and expectations to our incoming freshmen. We also offer the opportunity to our returning players to continue to grow and prepare themselves to be able to compete at the highest levels. The summer program is only 6 weeks long but it is vital to our success as we move into our fall season and beyond. We will offer every player meaningful game reps and quality workouts to keep the players focused on their personal growth.
