## IVY LEAGUE SUMMER PROGRAMS

### BROWN UNIVERSITY

**Summer@Brown:** From website: With so many students from different locations, backgrounds, and interests, you'll join a community of peers who brings broad and deep perspectives to living and learning together. Outside of class, you'll participate in workshops, activities, and events — scheduled from morning to night — that inform, engage and entertain. Along the way, you'll make new friends from around the world and learn to live independently and responsibly: skills that will prepare you well for life in college and long after. You are also able to embrace the challenge of college-level academics without the pressure of formal grades and credit, in classes taught by instructors just as interested in your learning as you are, alongside students just as engaged as you.

<https://precollege.brown.edu/programs/summerbrown>

**Summer@Brown Online** and choose from more than 80 courses that are rigorous, active learning experiences, led by innovative and engaged Brown instructors. Each course involves asynchronous, mostly asynchronous, or blended online learning experiences and many interactions between and among students and instructors. Through coursework that inspires curiosity and discovery, you'll connect with peers from around the world—students who are as enthusiastic, creative, and accomplished as you are. Summer@Brown Online offers academic challenges and personalized feedback that you can access from wherever you are. In addition to your coursework, you'll have the opportunity to engage with other program students in a range of community-building activities and workshops. You will be able to embrace the challenge of college-level academics without the pressure of formal grades and credit, in classes taught by instructors just as interested in your learning as you are, alongside students just as engaged as you. <https://precollege.brown.edu/programs/summerbrown-online>

**LEADERSHIP INSTITUTE** From website: the Leadership Institute is designed for highly motivated and intellectually curious students who are interested in social issues. We look for young people who are excited to learn and want to make a positive difference in the world. Applications are open to qualified high school students from 9th grade through graduated seniors. <http://www.brown.edu/academics/pre-college/leadership/>

### COLUMBIA UNIVERSITY

**SUMMER IN NY** From website: Now in its 29th year, Columbia University's New York City-based Summer Program for High School Students offers high-achieving students the opportunity to experience college life in the Ivy League while sampling the vibrancy of New York City. Open to students entering grades 9 through 12 and freshman year of college, the program combines academic rigor and instructional excellence with lively extracurricular offerings and careful supervision and support.

<https://precollege.sps.columbia.edu/highschool/summer-immersion-new-york-city>

**ONLINE SUMMER IMMERSION PROGRAMS** Dive into an Ivy League education this summer with Columbia's world-class instructors, and a dynamic online learning platform. Interact with Columbia instructors and experts in their fields. Engage with an international community of students. Prepare for college and the admissions process through specially designed programs. Participate in extracurricular

activities led by current students. Earn a Columbia University Certification of Participation and evaluation letter. <https://precollege.sps.columbia.edu/highschool/online>

### **CLIMATE SCHOOL IN THE GREEN MOUNTAINS**

The Columbia Climate School in the Green Mountains program will be offering two sessions in Summer 2022. Please sign up for our mailing list to receive updates and be notified once the application is available. Join us for the first-ever Columbia Climate School in the Green Mountains, held in-person this summer in Castleton, Vermont, to mobilize action, drive impact, and affect change in response to our warming planet. You have a critical role to play in finding solutions to a fast and evolving future where climate change continues to disrupt our way of life. Bring transparency to the complexities of the climate crisis and gain real-world experience to demonstrate your impact.

<https://precollege.sps.columbia.edu/highschool/columbia-climate-school>

### **JOURNALISM WORKSHOP**

Take part in a virtual learning experience like no other, where you will improve your skills, rethink your publishing strategies and take your media game to the next level. The Columbia Scholastic Press Association invites print and online staffs to take part in its 39th annual Summer Journalism Workshop - offered this year exclusively as virtual experience. Each participant, whether student or adviser, will have access to content focusing on either writing, editing, management or advanced design. Registration for this intensive program is open, while we finalize the details of our virtual programming. Follow the links on this page to visit the Workshop registration site.

<https://cspa.columbia.edu/conventions-and-workshops/summer-journalism-workshop>

## **CORNELL UNIVERSITY**

**CORNELL UNIVERSITY SUMMER COLLEGE** On-campus: Live, study & play at Cornell

Through the Cornell University Precollege Summer Residential Program, you can take fascinating college courses, study with top Cornell faculty, earn college credits, enjoy the gorgeous campus, and make friends from around the world. You'll choose from three- or six-week undergraduate courses, in which you'll earn transferrable credits in subjects from architecture to business, hospitality, engineering, health, international relations, science, social change, veterinary medicine, and more. Courses are taught by Cornell faculty, giving you an unrivaled learning experience with some of the university's best professors. Learn more about academics. <https://sce.cornell.edu/precollege/summer-college>

**Online Courses for High School Students:** From Website: Learn from anywhere. Take a fascinating college course at an Ivy League university. Study with a Cornell faculty member. Get a head start on college by earning credits and enhancing your study skills. Work with students from around the world. <https://sce.cornell.edu/precollege/roster?locations=Online&sessions=Summer>

## **DARTMOUTH COLLEGE**

**DARTMOUTH DEBATE INSTITUTE** From website: With the DDI, you'll have a chance to work with the coaches of many of the best college debate programs in the country. We have instructors that specialize

in policy, critical, and non-traditional arguments. Students can choose arguments that interest them to research and practice at the institute tournament. The DDI's unique competitive lab structure promotes constant strategizing against other labs' arguments before and during the tournament.

<http://ddidebate.org/>

**DARTMOUTH SUMMER CAMP, HEALTH CAREERS** From website: The primary purpose of the Health Careers Institute is to allow students to explore a wide range of career possibilities in the field of health care, while learning about important issues and topics in health care today. Typical Health Careers Institute participants have expressed interest in working in health care and want to know more about clinical and non-clinical health careers and what to do next to help narrow their focus or pursue their dreams. <https://tdi.dartmouth.edu/health-careers-institute>

## HARVARD UNIVERSITY

**SECONDARY SCHOOL PROGRAM** From Website You'll get a true taste of college as you engage with fellow high school and college students and thrive in an academically rigorous environment. Explore how learning might apply to a career. Discover a potential major. Delve into a passion or subject not offered at your high school. Enjoy the perspective that comes from connecting with a diverse group of peers as you engage in intellectual debate and explore new activities together. Gain the confidence to do well in college that comes from successfully navigating a healthy balance between coursework, extracurricular activities, and new friends.. <https://summer.harvard.edu/high-school-programs/secondary-school-program/#outcomes>

## PRINCETON UNIVERSITY

**AIU HIGH SCHOOL DIPLOMATS** From website: At Princeton, students from both Japan and America spend ten days living and socializing with each other. The program is designed to expose the students to both cultures through daily themes and activities. High School Diplomats brings American and Japanese students together at Princeton University for a cross cultural and educational exchange program. All current sophomores and juniors are encouraged to apply. There is no cost to the participants. Japanese is not a pre-requisite. <http://www.highschooldiplomats.com/>

**THE DAILY PRINCETONIAN SUMMER JOURNALISM PROGRAM** From website: Classes at the program are taught by reporters and editors from The New York Times, The Washington Post, Newsweek, The New Republic, The New Yorker, CNN and ABC News, among other media outlets. Students tour the Times, Newsweek, and CNN; cover a professional sports event; cover news events in the Princeton area; film and produce a TV segment; conduct an investigative project; author a group blog; and report, write, edit and design their own newspaper, The Princeton Summer Journal, which is published on the program's last day. The program is also designed to give students a taste of what life is like at one of the best colleges in the country—students live on campus and eat in one of the university's cafeterias—and to prepare them to apply to top schools. Students meet with Princeton's top professors as well as the school's president and its dean of admissions. Students attend seminars on every aspect of the college admissions process. They also take a practice SAT and attend an SAT class taught by Princeton Review. The program's 2014 schedule can be found here. After students return home, program staff remains in

contact with them, assisting them during the college application process and helping them to apply for journalism internships once they are in college. <http://www.princeton.edu/sjp/>

## UNIVERSITY OF PENNSYLVANIA

**LEADERSHIP IN THE BUSINESS WORLD** From website: Leadership in the Business World (LBW) is an intensive summer pre-college program for rising high school seniors who want an introduction to the fundamentals of leadership in business. This four-week summer program features classes at Wharton, company site visits, and activities designed to give students opportunities to learn about leadership in 21st century business organizations. <https://www.wharton.upenn.edu/pre-college-programs/>

**MANAGEMENT & TECHNOLOGY SUMMER INSTITUTE** From website: The Management & Technology Summer Institute (M&TSI) is a for-credit summer program for rising high school seniors who want to learn how to bring together technological concepts and management principles. The Institute features classes taught by leading Wharton faculty and successful entrepreneurs, as well as laboratory experience, field trips to companies and R&D facilities, intensive team projects, and other activities designed to help students learn the principles and practice of technological innovation. Sponsored jointly by The Jerome Fisher Program in Management and Technology, the School of Engineering and Applied Science, and the Wharton School of the University of Pennsylvania.

<http://www.upenn.edu/fisher/summer-mt>

**PRE-COLLEGE PROGRAM** From website: The Pre-College Program is designed for rising juniors and seniors interested in the intellectual challenge and rigorous pace of a true undergraduate experience. Students enroll in one or two summer courses alongside Penn undergraduates. Our program offers more than thirty undergraduate courses in exciting disciplines taught by Penn faculty, staff, and visiting scholars. Successful completion of courses will result in official academic credits and a Penn transcript. Academic advising, access to university learning resources, and college admission workshops are also provided. <http://www.sas.upenn.edu/summer/programs/highschool/precollege>

**PENN SUMMER ACADEMIES** From website: Penn Summer Academies are academically rigorous, subject intensive programs which fuse traditional classroom instruction with experiential learning opportunities. Academies meet Monday through Friday, roughly 9am to 4pm, and include morning lectures and discussion groups complemented by guided laboratory research or relevant field trips. All programs are overseen and taught by Penn faculty or staff, ensuring students are met with a challenging Ivy League curriculum. Programs conclude with a capstone project designed to hone skills learned throughout the academy. <http://www.sas.upenn.edu/summer/programs/highschool/academies>

**SUMMER SCIENCE ACADEMY** Penn Summer High School Programs open to residential and commuting students offer an outstanding academic challenge. Our programs are built around courses taught by Penn faculty, scholars, and distinguished outside experts. With small class sizes you can be sure to get the individualized attention you deserve. Residential programs include academically based extracurricular activities such as SAT preparation workshops, a college writing series, and presentations about college admission. <https://summer.sas.upenn.edu/courses/term/2022B/subject/STSC>

**PENN CHINESE ACADEMY** See World Language

**WHARTON BUSINESS SPORTS ACADEMY** See Business

## YALE UNIVERSITY

**ASPIRATIONS FOR HIGHER LEARNING** From website: The AFHL Pre-Collegiate Institute is a six-week summer program run by New Haven Public Schools and hosted by Yale designed to motivate, prepare, and inspire students in grades 9–12 for college admissions and college success. The academic and career development focus is on science, mathematics, and written communication. Students can access many of the exciting learning programs on Yale’s campus and visit colleges and sites of career interest around Connecticut. Students receive 1.5 academic credits for successful completion of the program.

<http://onhsa.yale.edu/summer-programs>

**YALE YOUNG GLOBAL SCHOLARS PROGRAM** From website: The Yale Young Global Scholars Program is a two-week academic enrichment and leadership training program for talented high school students from around the world, who live and study on the Yale campus during the summer. Students currently in the 10th grade or 11th grade are eligible to apply. <https://globalscholars.yale.edu/>

## TULANE SCHOOL

Tulane University understands that the world is facing some big challenges. To inspire the next generation to think, learn, act, and lead, we are offering students an opportunity to participate in Tulane Pre-College programs this summer.

Tulane Pre-College offers middle and high school students the opportunity to explore their artistic, intellectual, and professional passions while experiencing college life. With both credit and enrichment options, our two-week and three-week online course sessions provide students with an introduction to Tulane University, where young minds can explore academic disciplines, build their resumes, and imagine making an impact. <https://summer.tulane.edu/>

## ARCHITECTURE

**HIGH SCHOOL SUMMER ACADEMY** From website: Summer Academy has been part of the Boston Architectural College (BAC) curriculum since 1973. Our design exploration program is open to all high school students entering grades 10 and above. High school students attending Summer Academy during the month of July work in small studio teams building design skills in freehand sketching, perspective drawing and collage, model-making, mapping, and diagramming as they explore creative solutions to architectural problems at the scale of the body, the building, and the city. Everyone is challenged to think critically and communicate their creative design ideas to others. By making physical models, ideas are tested and teamwork is encouraged. During the course of the month, Summer Academy students expand their understanding of the impact of design around them and learn about the ways design can change communities and improve lives. As a student in the program, you will leave Summer Academy with new skills in design thinking that are applicable to many problems and types of work you may encounter whether you choose to concentrate in a design field or another area of study. <https://the-bac.edu/summer-academy>

**ARCHITECTURE CAREER DISCOVERY PROGRAM** From website: This two-week program focuses on an introduction to the theory of architecture, computing and simulation, freehand and extreme drawing, building ecologies and design. Students will be individually critiqued and tutored in design studios, group and individual projects, reviews, and public presentations. High school students will experience the rigors and rewards of a college-level architecture studio first hand. The program provides specific architectural training and enables students to make more informed decisions regarding their college careers. <https://summer.rpi.edu/home-page>

**ARCHITECTURE AND URBAN DESIGN** offers a six-week program exploring architectural education for individuals contemplating careers in architecture, design, and related fields. The program has two tracks, carrying 6 and 11 quarter units of UC credit respectively. Both tracks are structured around the experience of a design studio typically offered within the curricula of graduate programs. Intensive design exercises using the latest computer aided techniques in 3D modeling lead to complex and sophisticated architectural projects. <http://www.summer.ucla.edu/institutes/JumpstartArchitecture>

**EXPERIENCE IN ARCHITECTURE** From website: The Experiences in Architecture program at The Catholic University of America is an intense three-week workshop for students interested in architecture or other design related fields. Students are exposed to both the academics and the professional sides of the architecture arena, as the city of Washington, D.C., becomes their classroom. The Experiences in Architecture program will better prepare you for the rigors of architecture school, giving you a head start, as well as acquaint you with campus life at the university level. Students, who have participated in EiA's summer workshop, or a similar pre-college program, are better prepared for success at the university level. <http://summer.cua.edu/precollege/>

**EXPERIMENT IN ARCHITECTURE** From website: Students will tour the city of Chicago, complete a series of design projects, and attend lectures by IIT faculty. The program is intended to inform students about the study and practice of architecture, and will assist participants in making an informed decision about pursuing an architectural education and career. All individuals interested in pursuing a career in the design and building professions are encouraged to attend. <https://arch.iit.edu/study/intro>

**CARNEGIE MELLON'S [Architecture](#):** Introduces design practice, creative problem solving, and critical thinking through a matrix of programming, celebrating curiosity, and providing a strong foundation for architectural education. (5-week program)

**EMBARC SUMMER DESIGN ACADEMY:** *BERKELEY FROM WEBSITE:* embARC is an immersive summer design program at UC Berkeley's College of Environmental Design that brings together high school students from diverse backgrounds to explore architecture, urban design and sustainable city planning through integrated components: an Architecture + Urban Design Studio, a Sustainable City Planning Workshop, a Digital Design Workshop, an Environmental Design Conversation Series and a Materials Exploration Workshop. No prior experience in environmental design is necessary. <https://ced.berkeley.edu/academics/summer-programs/embarc-design-academy>

## BUSINESS/FINANCE/ECONOMICS

**WHARTON SPORTS BUSINESS ACADEMY** From website: Sponsored by the Wharton Sports Business Initiative (WSBI), the Wharton Sports Business Academy (WSBA) is a summer program that provides an

opportunity for talented rising high school juniors and seniors to study sports business leadership at the Wharton School of the University of Pennsylvania. This program will examine how various academic disciplines, such as management, law, negotiation, marketing, and leadership apply to the sports industry with an overview of the business and legal aspects of various intercollegiate, Olympic, and professional sports enterprises. <https://www.wharton.upenn.edu/pre-college-programs/>

**BUSINESS CAREERS AWARENESS PROGRAM (BCAP) AT THE UNIVERSITY OF ARIZONA** From website: The Business Careers Awareness Program (BCAP) at the University of Arizona would like to invite all juniors to apply for a chance to participate in an outstanding summer opportunity. The BCAP program is an annual weeklong event sponsored by Ernst & Young and the University of Arizona Accounting Department, and is offered free of charge to students. Students who are selected will be housed on campus in dormitories and participate in numerous activities and field trips designed to expose underrepresented student populations to the accounting profession and its various career opportunities. Participants experience the life of a college student while developing and presenting a business plan to accounting professionals. BCAP is an excellent resource for students who have the ability to attend college, but may not believe that they can find funding, or may not have family support for this choice. It is also aimed at talented students who would like to explore the potential of a business major before they start college. <http://accounting.eller.arizona.edu/bcap/>

**CLEMSON ENTREPRENEURSHIP AND PROFESSIONAL COMMUNICATION** From website: This workshop focuses as much on communicating your vision to others as it does on developing your vision itself. You will learn and practice the writing, speaking, design and digital communication skills necessary to persuade others that your business is the solution to their problem. You will engage with several different communication exercises ranging from authoring a 140-character mission statement to designing a business card and logo to presenting a five-minute “shark tank pitch” on the way to completing a business plan for your idea. <http://www.clemson.edu/summer/summer-science/coursedescriptions/Emerging.html>

**ECONOMICS FOR LEADERS (CALIFORNIA)** From website: The goal of the Economics for Leaders (EFL) program is to give promising students the skills to be more effective leaders and to teach them how to employ economic analysis when considering difficult public policy choices. Given the existing challenges confronting our nation and, assuming that problems in years to come will be equally consequential, the job of preparing the next generation of leaders may be one of the most important actions we can take now to ensure our well-being in the future. The Foundation for Teaching Economics is committed to finding and nurturing those budding leaders. EFL is a selective summer program that teaches leaders how to integrate economics into the process of decision-making in a hands-on, experiential environment. <http://www.fte.org/student-programs/economics-for-leaders-program/>

**ENTREPRENEURSHIP SUMMER CAMP** From website: Birmingham-Southern’s Entrepreneurship Summer Camp immerses aspiring entrepreneurs in their junior or senior year of high school into a highly collaborative week-long, residential business program. Over six days, campers will work in teams to construct their own unique business plans with the opportunity to win a Stump Entrepreneurship Scholarship to BSC. Teen entrepreneurs will engage in a curriculum based on sound business principles to enhance their entrepreneurial mindset and skills. Campers will experience real-world business activities through case studies, role-playing, and sessions with local entrepreneurship experts and business leaders. For more information, contact Amy Hayes at [ahayes@bsc.edu](mailto:ahayes@bsc.edu). <https://www.bsc.edu/academics/business/entrepreneurship.html>

**FUNDAMENTALS OF BUSINESS: LEADERSHIP IN A GLOBAL ECONOMY** From website: You will be introduced to business leadership, which provides an exceptional foundation for college and a future

career in business. As a participant in this course, you will gain valuable exposure to important business topics and methods of analysis as you learn from Georgetown professors and leading experts in the field. Combining investment challenges and group presentations with dynamic faculty lectures and case studies, Fundamentals of Business helps students develop practical skills and critical thinking abilities that will benefit them in their future academic and professional lives. The course ends with a business simulation that takes students through the process of starting a company and being an entrepreneur.

<https://georgetown.precollegeprograms.org/entrepreneurship>

**THE QUANTITATIVE FINANCE SUMMER INSTITUTE** From website: QFSI aims to give high school students a practical knowledge of the quantitative and analytical methods used in modern finance. This week-long seminar, hosted on the campus of Samford University in Birmingham, Alabama, offers students a challenging curriculum that goes beyond basic financial market education and utilizes advanced skills sets such as calculus, data analysis, and multi-level critical thinking.

<https://www.samford.edu/university-fellows/summer-programs/>

**LEADERSHIP IN THE BUSINESS WORLD** Please see Princeton University's Course Offerings

**LEAD SUMMER BUSINESS INSTITUTES** Please see Princeton University's Course Offerings

**LEBOW COLLEGE OF BUSINESS SUMMER PROGRAM AT DREXEL UNIVERSITY** From website: LeBow College of Business offers a variety of pre-college programs to expose high-achieving high school students to the world of business. Students learn directly from LeBow's distinguished faculty members at our main Drexel University campus in Philadelphia. Our programs provide students with skills and experiences that are valued by college admissions counselors, and students who complete our programs retain a depth of knowledge as well as lifelong friendships with peers from across the country.

<http://www.lebow.drexel.edu/resources/admissions/undergraduate/pre-college-programs>

**OPPORTUNITIES TO LEARN ABOUT BUSINESS @ WABASH** From website: OLAB is a one-week hands-on introduction to business and the market economy for young women and men entering their senior year in high school. Considered one of the premier summer programs in Indiana, OLAB teaches students that business can be fun, creative, challenging, and rewarding. The highlight of the week is "The Game." In addition to lectures by business leaders and Wabash faculty, students work in teams running a mock business. There is also time for recreation, as well as social activities in the evenings. To see a sample daily schedule, view the "At a glance" page. <https://www.wabash.edu/olab/>

**WALL STREET 101 – Bentley University** From website: Wall Street 101 is held at the Bentley University campus in Waltham, MA. This 5-day nonresidential program provides a fun and interactive opportunity for rising high school students to learn about the financial industry and other business fields, from NASDAQ to IPO to Dow Jones. Through classroom participation and hands-on exercises, students will explore the stock market and discover the process of investment. They will also experience the excitement and challenges of working in a real trading room environment, including participation in industry analysis, portfolio construction and simulated trading sessions.

<http://www.bentley.edu/centers/trading-room/wall-street-101>

## CLASSICS PROGRAMS

**CANE SUMMER INSTITUTE** From website: Hosted by a different university each year, CANE Summer Institute, Exegi Monumentum: Creating the Everlasting in the Ancient World takes place in late July. You will enjoy an enriching educational experience that includes a wide variety of mini courses, lectures, workshops, and special events celebrating the ancient Greek and Roman achievements of monumenta,

while also offering ample opportunity for collegial interaction between participants. For any inquiries, please contact the CSI Director, C. Emil Peñarubia: [https://caneweb.org/new/?page\\_id=165](https://caneweb.org/new/?page_id=165)

**SUMMER GREEK & LATIN WORKSHOPS AT UC BERKELEY** From website: The Summer Workshops at UC Berkeley, now more than thirty years old, provide a fun, rigorous, and time-tested way for students to master the ancient languages, with ten weeks of intensive study replacing more than two semesters of traditional coursework. The program includes occasional lectures by Berkeley professors as well as the traditional Friday Symposium, an opportunity to relax and socialize.

<http://www.classics.berkeley.edu/courses/workshops>

**SUMMER INTENSIVE IMMERSION COURSES IN LATIN AND GREEK AT AVE MARIA** From website: Ave Maria University and the Polis Institute are offering Summer Intensive Immersion Courses in Latin and Greek. These three- to six-week courses are designed to bring students to an active proficiency in Classical Latin or Koine Greek through immersion and dedicated study. Students will learn to think, read, write and speak Latin and Greek. For more information, email [summerimmersion@avemaria.edu](mailto:summerimmersion@avemaria.edu).

[http://classics.avemaria.edu/polis\\_greek\\_and\\_latin/](http://classics.avemaria.edu/polis_greek_and_latin/)

**UNIVERSITY OF CHICAGO LATIN SEQUENCE** The intermediate Latin sequence combines extensive reading of texts with a comprehensive review of Classical grammar and syntax; it prepares students for advanced courses in Latin and for the use of Latin texts in the course of their research. Texts studied are taken from a variety of representative and important authors, which may include Cicero, Seneca, Pliny, and others. The backbone of the review sessions is Keller and Russell, Learn to Read Latin, with supplementary exercises in composition. The program meets during both mornings and afternoons for approximately five hours a day. Students are responsible for considerable amounts of class preparation during the evenings, requiring a full-time commitment for the duration of the course. This course equips students to continue with advanced coursework or independent reading in Latin in all its varieties.

<https://summer.uchicago.edu/course/summer-intensive-intermediate-latin>

**UNIVERSITY OF DALLAS** University of Dallas offers high school programs in Rome and the U.S. Shakespeare in Italy and Latin in Rome are offered in Italy. CA campus offers Arete: An introduction to the Classics and Arete: American Studies. All programs are led by university faculty and offer tutorials while visiting historical and cultural sites.

<https://udallas.edu/constantin/academics/programs/classics/programs.php>

## COMPUTER PROGRAMS

**COMPUTER CAMPS HELD AT AMHERST COLLEGE** From website: In 1999, our independent family company set out to reinvent “camp” for the 21st century. Today, we’re the number #1 tech camp on the planet, with summer technology programs for kids and teens held at over 100 campuses nationwide. At Amherst College in Amherst, MA, we offer co-ed iD Tech Camps for ages 7-17. Learn code, game design, app development, web design, film, photography, and more. Kick-start your dream job and gain a competitive edge for college! At Amherst College in Amherst, MA, we offer co-ed iD Tech Camps for ages 7-17. Learn code, game design, app development, web design, film, photography, and more. Kick-start your dream job and gain a competitive edge for college!

<https://www.idtech.com/locations/massachusetts-summer-camps/amherst/id-tech-amherst-college/>

**THE GAME, CINEMA, & ANIMATION SUMMER ACADEMY** From website: The Game, Cinema, & Animation Summer Academy is a week-long program held at DePaul University's Loop campus. High school students will receive hands-on instruction using the latest equipment and technology and will be

taught by DePaul faculty with real-world experience. Areas of focus will include digital cinema production, 3D computer modeling and animation for games and cinema, and computer game development. <http://www.cdm.depaul.edu/academics/Pages/CIM/CIM-Summer-Academy.aspx>

**CARNEGIE MELLON'S [National High School Game Academy](#):** Allows high school students to experience modern video game development using industry-standard technology. Students interested in [art](#), [music and audio](#), [game design](#), and [software development](#) are encouraged to apply for this interdisciplinary program. (6-week program) **[Upcoming virtual Discover Session on December 5, 2023!](#)**

**GAME DESIGN AT STEVENS** This multidisciplinary program merges art, design, play, storytelling, and computer science. Students will develop original video-games including concept and visual development, gameplay and mechanics, play-testing and critique. Students will start by designing simple card and board games to understand how games work, then quickly progress to the Unity game engine where they will develop and program full 3D games. Students will also be introduced to Javascript, Photoshop, and other software to develop their games. Housed in the Visual Arts & Technology Lab and Studio, this interdisciplinary program will bring students from idea to full game in just two weeks! <http://www.stevens.edu/sit/admissions/stevens-summer/details#gamedesign>

## DIGITAL IMAGE, VIDEO, FILM AND SOUND PRODUCTION

**ASU SUMMER PERFORMING ARTS + CINEMA EXPERIENCE (ASU SPACE)** From website: Do you want to direct films? Make music videos? Act on camera? Write for TV? ASU SPACE is your chance! Hosted by ASU School of Film, Dance and Theatre, ASU SPACE is a unique, two-week intensive in film and media creation for high school and community college students. ASU SPACE is perfect for aspiring performers, writers, directors, editors, cinematographers and more. With an emphasis on creativity and collaboration, this program is a great way to build your skills and explore the possibility of college study and a career in film, media and the performing arts. <https://summer.digitalculture.asu.edu/>

**AUDIO PRODUCTION BOOT CAMP** From website: Ever wonder how a recording studio works? Got a song you've always wanted to record, but don't know where to start? Audio Production Bootcamp is an intensive one-week hands-on introduction to the world of music and sound production. You'll experience the entire process of recording, from sketching out your musical idea, to sequencing electronic instruments, multi-track recording, all the way to the final mix. You'll be exposed to both the creative and technical aspects of music production and get a chance to record your own voice or instrument using the same top quality gear the pros use. You will leave the session with a fully produced music track in hand, ready to play for your friends or send to that all-important talent scout. <http://www.clemson.edu/summer/summerscience/coursedescriptions/AudioEngineering.html>

**HIGH SCHOOL SUMMER INSTITUTE @ COLUMBIA COLLEGE CHICAGO** From website: This course is an introduction to the visual art of filmmaking. Through the conceptual processes of screenwriting and storyboarding, students will learn to communicate an idea visually. Production logistics will be taught, culminating with an end project, the trailer to the movie students have created in the course. Equipment is provided throughout production week. <https://www.colum.edu/admissions/summer-at-columbia/>

**INNERSPARK ANIMATION** From website: An individual, expressive use of the film and video medium is emphasized in the Film & Video program. Each year, 28 students learn all aspects of creative film and digital-video production, from experimental to pre-cinema history. They view over fifty exemplary films and videos, and attend lectures and presentations by visiting artists working in the field. The program is very learning-intensive and ideal for self starters who want to challenge both themselves and the boundaries of film and video production while developing their own critical thinking and artistic visions. The program is structured to resemble a collegiate BFA course that students typically experience at elite university and art school film programs. <https://www.csssa.ca.gov/>

**INTERLOCHEN SUMMER PICTURE ARTS PROGRAM** From website: Located in Michigan. Discover creative ways to bring your imagination to the big screen during our six-week digital filmmaking program. From learning how to communicate your vision into a screenplay, to shooting and editing, you'll experience the entire artistic and collaborative process of cinema. <https://www.interlochen.org/summer-arts-camp>

**SPOT-127** From website: We are an innovative educational outreach and dropout prevention initiative aimed at low income and at-risk teenagers in the Phoenix area. Our free in-school and after-school programs and summer camps provide mentoring and instruction in multimedia production. Our project-based curriculum offers hands-on training in digital photography, video production, audio production and social media. In addition to technical skills, our students gain developmental and life skills put them on a path to higher education and lifelong success. They also develop media literacy while honing their writing, presentation and critical-thinking skills. Students who complete our after-school program are eligible to apply for 10 full-ride scholarships to a Maricopa Community College. We offer paid reporting internships for participants interested in journalism beginning at age 16. All stories are distributed on our website and on social media, and some are even featured on KJZZ 91.5 FM's local news programming. <https://spot127.org/>

**SUMMER FILM ACADEMY AT DODGE COLLEGE** From website: Chapman University's Dodge College of Film and Media Arts offers a two-week comprehensive, collaborative and creative high school film program during the summer. For two weeks students are immersed in the world of film through class discussions, film screenings, guest speakers, field trips, and filmmaking in small groups. They live, breathe and eat filmmaking around the clock while being taught by Chapman faculty who are industry professionals and mentored by current Dodge College grad students and alumni. <https://www.chapman.edu/dodge/summer-programs/summer-film-academy/index.aspx>

**SUMMER FILM INTENSIVE** From website: Now in our eighth year together, Sarah Lawrence College and the International Film Institute of New York are happy to offer a unique opportunity to learn the art of filmmaking in an in-depth, supportive, and intimate program. Students will gain hands-on experience and instruction in all aspects of filmmaking, focusing on four core elements: writing for the screen, directing, production, and post-production. <https://www.sarahlawrence.edu/ce/summer>

## ENGLISH LITERATURE, CREATIVE WRITING AND JOURNALISM

**ASIAN AMERICAN JOURNALIST ASSOCIATION—J CAMP** From website: JCamp is a six-day intensive journalism training for high school students. Students learn from professional journalists and get hands-on training in writing, photography, television broadcasting, online media, and reporting. Sessions and workshops are led by experienced journalists from top media companies. JCamp is an all-expenses-paid program with travel, meals and lodging covered by AAJA's partners. <https://www.aaja.org/programs-and-initiatives/jcamp/>

**CARLETON COLLEGE SUMMER WRITING PROGRAM** From website: The Summer Writing Program emphasizes a writing process approach, teaching you how to compose academic papers similar to those you will write in college. The program is designed for college-bound students with strong reading and writing abilities. <http://apps.carleton.edu/summer/writing/> **DUKE UNIVERSITY YOUNG WRITERS CAMP** From website: The attendance requirements for Young Writers' participants are an enthusiasm for writing and a desire to work to develop writing skills. The curriculum is designed so that students who have average or above average reading and writing abilities will benefit most from attending the program. Since the camp is academically rigorous, we encourage attendance only for students who are academically motivated and have the ability to manage their time to complete assignments. <https://www.carleton.edu/summer/pre-college/>

**EMERSON COLLEGE JOURNALISM INSTITUTE** From website: If you're a high school student curious about the news, storytelling, politics, or social issues, and communication and the latest technology, the Summer Journalism Institute is the perfect three-week summer academic choice for you. In the Summer Journalism Institute, news-inspired students will develop basic journalistic techniques and approaches to produce journalism in a variety of formats. <http://www.emerson.edu/academics/pre-college/pre-college-institutes>

**INDIANA UNIVERSITY HIGH SCHOOL JOURNALISM INSTITUTE** From website: The High School Journalism Institute serves as a continuing education outreach program for both in-state and out-of-state secondary school students and teachers. HSI provides a series of intensive journalistic non-credit five-day workshops each summer intended primarily for staff members of secondary school media outlets as well as for high school students wishing to explore journalism as an academic or career interest. Several five-day summer journalism workshops, carrying graduate credit, for high school teachers occur. <https://hsji.mediaschool.indiana.edu/>

**IOWA YOUNG WRITERS** From website: At the Iowa Young Writers' Studio, you will choose a single Core Course of study—Poetry, Fiction, or Creative Writing (a survey that includes poetry, fiction, and creative nonfiction)—as your focus for the two weeks of the program. After you're accepted to the program, you'll have the opportunity to look over several course descriptions and pick one depending on what, and with whom, you would like to study (poetry, fiction, creative writing) <https://iyws.clas.uiowa.edu/>

**ITHACA WRITERS INSTITUTE** From website: Begin your writing odyssey in Ithaca. Unlike most other young writers' conferences, which focus primarily on creative writing, the Ithaca Writers Institute hosts a wide range of both creative and professional writing courses, from poetry to publishing, building on Ithaca College's reputation for blending praxis with the arts. Taught by the distinguished faculty of the College's Department of Writing, with assistance from the department's most talented undergraduates, the curriculum mirrors the department's own unique curriculum, giving aspiring young writers an immersive conference experience in an authentic college atmosphere. Students spend mornings in two-hour workshops, focusing on the genre of their choice, and spend afternoons in lectures and craft classes that allow them to experiment across the genres. In the evenings, they participate in a student reading series and interact directly with visiting writers and publishing professionals who have expert insight into the craft and business of writing. <https://www.ithaca.edu/ithaca-young-writers-institute>

**YOUNG WRITERS SUMMER PROGRAM AT KENYON COLLEGE** From website: Young Writers is an intensive two-week workshop for intellectually curious, motivated high school students who value writing. Our goal is to help students develop their creative and critical abilities with language—to become better, more productive writers and more insightful thinkers. For more than nineteen years, Young Writers has provided a lively, supportive environment where students can stretch their talents,

discover new strengths, and challenge themselves in the company of peers who share their interests.  
<http://www.kenyonreview.org/workshops/young-writers/>

**LAKE FOREST COLLEGE: WRITING AND THINKING WORKSHOP** From website: Supportive faculty work with students in small groups to help them develop confidence in their voices as writers. Participants learn strategies to generate fresh and compelling ideas, the kind of well-reasoned ideas first-rate colleges and universities expect from their students. Trips to Chicago’s museums and cultural events offer additional inspiration. <http://www.lakeforest.edu/academics/summer/wtw/>

**MEDILL-NORTHWESTERN JOURNALISM INSTITUTE** From website: This in-depth, five-week program is designed for students who have just finished their junior year of high school and wish to become better writers and editors for print, online and broadcast. Enrollment is limited to 84 and students typically come from as many as 25 states and abroad. Teachers are top-notch practitioners and distinguished Northwestern faculty. <http://sps.northwestern.edu/program-areas/summer/high-school-programs/>

**NYS SUMMER YOUNG WRITERS INSTITUTE** From website: The New York State Writers Institute in conjunction with the Office of the Dean of Special Programs at Skidmore College is pleased to announce the 17th annual creative writing workshop for high school students. The New York State Summer Young Writers Institute (SYWI) will be held at Skidmore College, Saratoga Springs, New York. Participants in the Summer Young Writers Institute receive instruction in poetry, fiction, and dramatic writing (screenwriting, playwriting, and dramatic monologue) and engage in the critical evaluation of each other’s work. By bringing top high school student writers together to work extensively with professional writers, the SYWI provides young artists with recognition, respect, opportunities for artistic development, and peer support. <https://www.skidmore.edu/summerwriters/index.php>

**SUMMER SEMINAR FOR WRITERS** From website: Founded in 1993 by Thomas Lux and Jane Cooper, the Summer Seminar is a chance for writers to experience the Sarah Lawrence pedagogy, to work with a faculty of acclaimed writers and passionate teachers, and to spend a week in a stimulating atmosphere, where writing—and thinking about writing—is at the core.  
<https://www.sarahlawrence.edu/ce/summer/>

**SUMMER WRITER’S WORKSHOP AT SARAH LAWRENCE** From website: The Sarah Lawrence College Summer Writer’s Workshop for High School Students is a unique collaboration between writers and other artists. Directed by distinguished faculty members, the program gives high school students the experience of writing in a non-competitive, non-judgmental environment that values the risks and adventure of the creative process. Each day, participants attend writing and theatre workshops led by prose writers, poets, and theatre artists. Included in the week are mini-workshops taught by program faculty and guest artists. Rooted in the Sarah Lawrence College tradition of one-to-one interaction, the program offers students the opportunity to meet individually with workshop leaders. Classes are limited to 15 students, with three faculty per workshop. In addition to workshops, the program includes faculty and student readings, and a celebration of student work on the last day.  
<http://www.slc.edu/ce/summer/writers-workshop/>

## FINE ARTS: DRAMA, ART, MUSIC AND POETRY

**AMERICAN ACADEMY OF DRAMATIC ARTS SUMMER PROGRAM** Designed for teenagers who would like to begin studying acting in an environment of professional study and training, this six-week course includes classes in acting, vocal production, voice and speech, and movement. Elective classes

are also offered in areas like Fencing, Mime, Make-up and Musical Theatre. At the end of the program, students appear in a presentation of scenes. <https://www.aada.edu/>

**AMERICAN SHAKESPEARE CENTER** From website: For actors who want to deepen their interest in theatre history! With three weeks of engaged working in the world's only re-creation of Shakespeare's indoor theatre, the Blackfriars' Playhouse, actors discover how original practices—universal lighting, audience contact, simple sets, live music, taking on multiple roles and cross-gender casting—can be brought to life for a 21st century audience. <http://www.americanshakespearecenter.com/v.php?pg=77>

**ASU SUMMER PERFORMING ARTS + CINEMA EXPERIENCE (ASU SPACE)** See Film and Sound Production ASU INTRODUCTION TO DANCE ON CAMPUS From website: This program is geared towards high school students who are considering studying dance in college. Students will take classes that are offered in ASU's dance program while also learning about habits that contribute to a successful college experience. Classes will be taught by ASU dance faculty and teaching assistants on the ASU Tempe Campus. It is a great way to learn about the benefits and realities of studying dance in college. <https://musicdancetheatre.asu.edu/music-dance-theatre-summer-institute/theatre-summer-programs-and-classes/theatre-middle-high-school>

**ASU SCHOOL OF ART SUMMER SESSIONS** From website: ASU School of Art in the Herberger Institute for Design and the Arts offers summer sessions focused on four of our seven studio disciplines of fine art: ceramics, fibers, intermedia, painting/drawing, printmaking, photography or sculpture. The summer sessions are designed to give you an art immersion experience. You will work with faculty on creative projects that represent the variety of courses offered from the School of Art BFA program. The summer sessions will conclude with an exhibition of student work in Gallery 100 on ASU's Tempe campus. <https://art.asu.edu/resources/summer-camps>

**BERKLEE FIVE-WEEK SUMMER PERFORMANCE PROGRAM** From website: The Five-Week program is a pre-college course ideally suited to high school students but is open to all eligible applicants. The program takes place on the Berklee campus, located in Boston's business, retail, and arts district. Join musicians from more than 70 countries for the summer of a lifetime. The focus is on you and what you want to say with your music in an environment that is pure performance. Immerse yourself in your chosen style and study with world-class faculty and visiting artists in state-of-the-art facilities. You'll play in ensembles, develop improvisational and reading skills, and improve your technique in weekly private lessons. <https://www.berklee.edu/summer/programs/five-week>

**BERKLEE TWELVE-WEEK SUMMER PERFORMANCE PROGRAM** From website: Join other serious music students from all over the world and get a comprehensive taste of Berklee with this full-credit Twelve-Week Summer Program. Without even going through our audition and interview process, you'll complete the first semester of Berklee's regular college-level core curriculum and earn a full semester of college credits. No audition required. You will need a minimum of two years of formal music training or experience on your principal instrument or voice, and good working knowledge/familiarity with the written fundamentals of music theory. <https://www.berklee.edu/summer/programs/twelve-week>

**BIMA AT BRANDEIS UNIVERSITY** From website: At BIMA you'll be part of a vibrant community brimming with artistic discovery and Jewish experiences. Receive intensive one-on-one instruction in your chosen major, collaborate and create in small groups, and explore the community around you with new friends—all while learning more about who you are as an artist and as an individual. Your Judaism adds color and depth to the whole picture. Receive intensive one-on-one instruction in your chosen major, collaborate and create in small groups, and explore the community around you with new friends—all while learning more about who you are as an artist and as an individual. Your Judaism adds

color and depth to the whole picture. <https://www.biartmuseum.org/events/2021-summer-camps-teen-intensive/>

**BOSTON UNIVERSITY SUMMER THEATRE INSTITUTE** From website: The Boston University Summer Theatre Institute is a five-week conservatory experience for highly motivated high school theatre artists. Designed to mirror the freshman BFA experience within the College of Fine Arts School of Theatre at Boston University, the Institute allows all participants the opportunity to test their interests and abilities in a professional training environment. Students earn 4.0 college credits for their coursework in acting, design, voice, singing, and stage combat, as well as master classes, experimental theatre laboratories, and the creation of an original piece of theatre with members of their ensemble. Throughout the five-week program, students engage with Boston University, the professional artistic community in Boston, and the city's historic and cultural offerings. Students graduate from BUSTI having honed their technique, depth of intellectual and artistic questioning, playfulness in collaboration, and ability to tell a dynamic story through the theatrical medium. <http://www.bu.edu/cfa/busti/>

**BROWN THEATREBRIDGE** From website: Theatre Bridge serves as a connecting link between high school and college theatre and encourages a commitment to a life of creative engagement. The highly selective program provides promising young actors an opportunity to stretch their imaginations and skills and encourages students to achieve their highest potential. <https://precollege.brown.edu/>

**CALIFORNIA COLLEGE OF THE ARTS PRE-COLLEGE EXPERIENCE** From website: CCA's Pre-College Program is an exciting opportunity for high school students to study art, architecture, design, or creative writing in an art-school setting. Our program provides a perfect platform to expand your knowledge, grow as an individual, develop strong portfolio pieces, and get a taste of college life. As a Pre-College student you will find inspiration in this unique environment. <https://www.cca.edu/academics/precollege>

**CALIFORNIA STATE SUMMER SCHOOL FOR THE ARTS** From website: The California State Summer School for the Arts (CSSSA) is a rigorous pre-professional training program in the visual and performing arts, creative writing, animation, and film for talented artists of high school age. CSSSA provides a supportive environment in which students hone acquired skills and explore new techniques and ideas for an intense and exciting learning experience. The School was created by the California Legislature, held its first session in 1987 and will conduct its 28th session in 2014. Its purpose is to provide a training ground for future artists who wish to pursue careers in the arts and entertainment industries in California. The California State Summer School for the Arts is a state agency funded through a unique public private partnership. Students apply for the opportunity to study in one of the School's seven departments. They may receive 3 units of California State University elective credit for successful participation. <https://www.csssa.ca.gov/>

## **CARNEGIE MELLON PROGRAMS**

- **Drama:** Prepares students for the college audition and interview process, illustrating the kind of creativity and discipline required of students studying a Bachelor of Fine Arts Drama curriculum. Students will be introduced to the intensity of a top-rated undergraduate conservatory experience. (6-week program)
- **Music:** Immerses high school students in a world-class conservatory experience within an internationally recognized university. The program mirrors the first weeks of Carnegie Mellon's first-year undergraduate School of Music curriculum. (3- and 6-week program options, commuter part-time option)

**EMERSON COLLEGE ARTS AND COMMUNICATION PRE-COLLEGE STUDIO PROGRAMS** From website: If you're a high school student with a passion for acting, creative writing, filmmaking, musical theatre, or stage design, and you're looking for a summer academic program where you can pursue your creative interests and develop your talents, then the five-week Emerson College Arts and Communication Pre-College Studio Programs are just right for you. In the Pre-College Studio Programs, you'll focus on acquiring skills in one of five academic areas and learn by doing. An accomplished team of instructors will help you prepare audition material or portfolio pieces for college applications. Programs include the following: Acting, Creative Writers' Workshop, Filmmakers' Studio, Musical Theatre, and Stage Design. <http://www.emerson.edu/academics/pre-college/pre-college-studio-programs>

**EXPLORING MUSICAL THEATRE AT SARAH LAWRENCE (NEW YORK)** From website: This is an exciting and rigorous program with a special focus on musical theatre, including acting technique, vocal technique, vocal coaching, choreography, and creating and developing original work. If you love musical theatre, this three-week intensive will develop and strengthen the skills needed to propel your creative work to the next level. <https://www.sarahlawrence.edu/ce/summer/>

**FIDM FASHION INSTITUTE OF DESIGN AND MERCHANDISING** From website: Learn what it's like to launch your own business or have a great career in Marketing, Social Media, Fashion Buying, Merchandising, Fashion Styling, or Fashion Design at FIDM's 3 Days of Fashion for high school students! In 3 creative and inspiration-filled days, you will take workshops like "Draping the Dress," where you will create a 3-dimensional design on a fitting form; you will take "Concept to Consumer," which focuses on design and merchandising; and you will take "Creating a Promotional Campaign," where you will work on a photo shoot and a special event. <https://fidm.edu/en/calendar/summer+programs/3+days+of+fashion/>

**HIGH SCHOOL DRAMA INSTITUTE AT CATHOLIC UNIVERSITY OF AMERICA** From website: The CUA High School Drama Institute is a two-week residential drama program for students who wish to pursue a serious summer drama training experience. If you want to strengthen your acting skills, work hard with likeminded students, and live on a university campus, this summer experience is for you. <http://summer.cua.edu/precollege/>

**INDIANA UNIVERSITY SUMMER MUSIC CLINIC** From website: Indiana University Summer Music Clinic offers the high school student a musically challenging experience on the beautiful wooded IU campus. Students live in university housing with final concerts presented in the Musical Arts Center. All members of clinic staff are experienced and successful music instructors in their own right. A number of recital and program opportunities are presented throughout the week. Because this is primarily a band and orchestra camp, every student must participate on a wind, orchestral string, or percussion instrument. <http://music.indiana.edu/precollege/summer/music-clinic/>

**ITHACA COLLEGE - ACTING** From website: Acting I [gives an] opportunity to explore some fundamental acting concepts and techniques through exercises, improvisations, presentations, readings and discussions. It is a way of understanding what we do in life and making it work on stage. Acting is a life-enhancing process that involves commitment and focus with a willingness to explore and communicate. Both newcomers to acting and those who have experience will have a chance to challenge themselves and enjoy the work. Classes begin with a vocal and physical warm-up preparing everyone for the day's work followed by theatre games, projects and script work (monologues and scenes). We create an ensemble where students feel free to work together and give feedback. Over the

course of the semester you will learn improvisation and audition techniques and work on a monologue and a scene. Some techniques explored are Meisner, Stanislavski, sensory work, mime and Rasa Boxes.

<https://www.ithaca.edu/summer-high-school-theatre-intensive>

**JULLIARD SUMMER DANCE INTENSIVE** From website: The Summer Dance Intensive is a three-week program in classical ballet and modern dance for advanced students who are dedicated, disciplined, and dance with a generosity of spirit. The program is limited to dancers who are currently in high school/secondary school and who will not graduate before the program begins. Generally, this means that dancers in the program are aged 15-17 and have completed grade 9, 10, or 11. The program is designed to give young dancers a taste of what a Juilliard dance student's life is all about: refining technique and performance, broadening understanding of various dance styles, experiencing New York City, and making friends from all over the world. The program takes place at The Juilliard School in New York City, and optional on-campus housing is available. <https://www.juilliard.edu/stage-beyond/summer-programs>

**NYC SUMMER THEATER INSTITUTE AT THE KING'S COLLEGE (NY)** From website: Ten days of seeing shows, learning about theater, and seeing the sites of NYC. What could be better? The Institute is usually held in mid-May. <https://www.tkc.edu/admissions/summer-academy/>

**NYU TISCH SUMMER ARTS PROGRAM** From website: During the summer the Tisch School of the Arts offers high school students the chance to participate in intensive training in New York City. Through these programs students gain an enriching and enlightening experience, and a better understanding of the nature of a professional training program. In each of our four-week residential programs, students are enrolled in rigorous and highly structured college-level courses taught by our full-time faculty. Upon successful completion of the summer program, students earn six college credits, all fully accredited New York University courses. <http://specialprograms.tisch.nyu.edu/page/hsStudents.html>

**THE REYNOLDS YOUNG WRITERS WORKSHOP** The Reynolds Young Writers Workshop at Denison University is an inspiring place for high school students who love to write. This 8-day residential program brings together young writers who are passionate about artistic expression and eager to stretch in new directions. In small workshops in poetry, fiction, and nonfiction, beginning poets and writers get the chance to develop their talents and refine their skills. Daily cross writing classes give exposure to all the genres, while group sessions with visiting writers and readings enrich the experience. There's also time to write individually and to meet with faculty one on one. Participants also contribute poems and short prose pieces to the Workshop Anthology, ready to take home at the week's end. The Reynolds Young Writers Workshop offers an energizing writing experience for up to 36 rising high school juniors, seniors, and college-bound students from across the country. Financial assistance is available on an as needed basis. <https://reynolds.denison.edu/about/>

**RISD SUMMER PRE-COLLEGE PROGRAM (RHODE ISLAND SCHOOL OF DESIGN)** From website: RISD Pre-College is about strengthening your ability to observe, conceptualize, analyze and create. That's why the carefully balanced schedule and all-day studio classes offer the chance for you to experiment and creatively problem solve. RISD Pre-College is about strengthening your ability to observe, conceptualize, analyze and create. That's why the carefully balanced schedule and all-day studio classes offer the chance for you to experiment and creatively problem solve. <http://precollege.risd.edu/>

**RUTGERS SUMMER ACTING CONSERVATORY FOR HIGH SCHOOL STUDENTS** From website: Unparalleled conservatory training for young people serious about acting! RSAC is a highly selective, four-week conservatory acting program that accepts only 38 high school students from across the country. All conservatory faculty are working theater professionals dedicated to providing students with

a challenging, inspiring learning environment that allows each student to develop as a young theater artist. Musical Theater track available. <http://www.masongross.rutgers.edu/content/rutgers-summer-acting-conservatory>

**SAVANNAH COLLEGE OF ARTS AND DESIGN (SCAD) SUMMER SEMINARS** From website: SCAD Summer Seminars offer workshops for high school students who have completed their freshman, sophomore or junior years. Students gain valuable educational experience while developing their creative vision through exciting art and design assignments and projects. Students attend two workshops and have access to the university's extensive facilities, resources and libraries. Workshops may include demonstrations, lectures, studio work and local field trips and are taught by SCAD professors, alumni or selected graduate students. To provide maximum individual attention and collaborative interaction between students and instructors, class size is small, with generally 15 or fewer students in each workshop. Organized social and cultural activities each day create an authentic experience of life as a SCAD student in the city. A closing exhibition of student work is held at the end of each session. <http://www.scad.edu/academics/pre-college-summer-programs/scad-summer-seminars>

**THE SUMMER ART INSTITUTE AT UCLA** From website: The Summer Art Institute is designed for talented and highly motivated high school students. Each two-week session carries three units of UCLA college credit, and is structured around a combination of daily, focused studio work, artist lectures, field trips, and a final exhibition. Students may enroll in one, or both, two-week sessions, and choose from Drawing, Painting, Photography, or Sculpture. <http://www.summer.ucla.edu/institutes/Art>

**SUMMER INSTITUTE: ACTIVATING LEARNING THROUGH THE ARTS** From website: The Summer Institute is a research-based comprehensive pedagogical exploration and immersion training experience in the use of drama-based instruction across the curriculum. This intensive arts integration training program is co-facilitated by faculty and graduate students from the Department of Theatre and Dance and the College of Education. The Institute provides an opportunity for UT students and working professionals from across the country to gather and explore the power of learning in and through the arts. <https://theatredance.utexas.edu/beyond-stage/summer-programs/summer-institute-activating-learning-through-arts>

**THE SUMMER OF ART AT OTIS COLLEGE** From website: This intensive, four-week, pre-college program is for individuals 15 and older who wish to study at one of the top art and design colleges in the country. Serious young artists seeking to strengthen and enhance their art and design skills, as well as students with limited art training, are invited to participate. On the last day of the program there is a final exhibition of student work. You and your instructors will select your best work for the exhibition. The work is displayed throughout the campus, giving you the experience of being part of a gallery show with your peers, while sharing your artwork with family and friends. <http://www.otis.edu/summer-art>

**UNIVERSITY OF MINNESOTA: STAGE ELEMENTS SUMMER THEATRE INSTITUTE** From website: Immerse yourself in an extraordinary, 11-day theatre intensive designed for current high school freshmen, sophomores and juniors, led by distinguished University of Minnesota faculty who are professional artists from organizations including the Guthrie Theater, Children's Theatre Company, Open Eye Figure Theatre and Penumbra Theatre. The STAGE ELEMENTS Summer Theatre Institute is an opportunity for young artists to sample the rigorous BA Performance and BFA Actor Training programs offered in the University of Minnesota's West Bank Arts Quarter.

<http://theatre.umn.edu/elements/FAQ.php>

**VASSAR POWERHOUSE THEATER** From website: Powerhouse Theater apprentices are challenged to look at the world of theater in new and meaningful ways. They explore the boundaries of performance by living, breathing, and creating theater with peers and professionals alike - to come away with an

experience that will inform the rest of their lives. Each season around 45-50 students from across the country and around the world participate in the training program and form the Powerhouse Apprentice Company. These young artists – current students, recent graduates, and future theater professionals – are provided with a distinctive opportunity to create their own new work as well as work on the development of theater and musical productions headed for Broadway and top-ranked theaters nationwide. This educational experience is not replicated anywhere else in the country.

<http://powerhouse.vassar.edu/>

**YALE THEATRE SUMMER** From website: The Yale Summer Conservatory for Actors is an intensive introduction to the basic techniques of acting. Based on the principles of Stanislavski, this five-week program is a distillation of the acting curriculum at the Yale School of Drama. The Conservatory emphasizes both the personal and professional growth of its participants. More than just acting or scene study, the Conservatory offers students an entire program comprised of a series of sections, each focused on a fundamental element of acting. <https://summer.yale.edu/apply/pre-college-students>

## WORLD LANGUAGES

**CENTER FOR TALENTED YOUTH PROGRAM IN HONG KONG** From website: The University of Hong Kong is the oldest institution of higher education on the island of Hong Kong. Founded in 1911, HKU has an impressive history of excellence in education and is an internationally recognized research university. The university itself faces picturesque Victoria Harbor and the main campus consists of buildings that represent historical British Colonial architecture. In an inspiring environment, students are able to use modernized educational facilities. HKU is located in the Mid-Levels area in Hong Kong and is connected to surrounding areas by a comprehensive public transport network; commuting to HKU is both safe and convenient. Classes and activities for commuting students will meet from 9:00 AM to 9:00 PM, Monday to Friday during the program, and residential students will participate in weekend activities as well. For more information about CTY and eligibility requirements, please visit <http://cty.jhu.edu/>

**CONCORDIA LANGUAGE VILLAGES** From website: Deep in the North Woods of Minnesota, we create a place that is both culturally authentic and uniquely our own. In the Language Villages, everything from the music played to the dishes used in the dining hall reflect the culture each was designed to represent. Immerse yourself in the world of a native speaker, where you can truly learn to live a language, not just speak it. Coming to the Language Villages for a summer language immersion program is just like entering a new country. Language programs include: Chinese, Japanese, Spanish, Russian, French, German, Arabic, Hebrew, Korean, Danish, Finnish, Italian, Norwegian, Swedish, and Portuguese.

<http://www.concordialanguagevillages.org/youth-languages>

**LANGUAGE SCHOOLS AT MIDDLEBURY** From website: Every summer, students and teachers, scholars and artists, entrepreneurs and political leaders from around the world gather at the Middlebury Language Schools. The catalyst for this miracle is the Language Pledge, a promise made by students, faculty, and staff to communicate solely in their language of choice for the duration of their time in the program. Within the classroom, the Language Pledge supports the creation of a solid foundation in language—reading, writing, listening, and speaking. Outside the classroom, the Pledge fosters meaningful engagement and fluency acquisition, as students participate in a vast range of curricular activities, all of which happen in language. Language programs include: Chinese, Japanese, Spanish, Russian, French, German, Arabic, Hebrew, Korean, and Portuguese.

<http://www.middlebury.edu/languages>

**MIDDLEBURY AT MILLS** From website: Middlebury at Mills brings our established Language Schools programs to the historic Mills College campus in Oakland, California. This provides a unique opportunity for our West Coast students to experience Language Schools closer to home, and for East Coast students to explore the liveliness and cultural diversity of the Bay Area. Designed to provide the accelerated language acquisition students expect from the Language Schools, Middlebury at Mills offers instruction in Arabic, Italian, and Korean. All students admitted to these Schools will study at Mills. Application and financial aid processes are identical to those for the Middlebury campus.

<http://www.middlebury.edu/ls/experience/mills>

**PENN CHINESE ACADEMY** From website: The University of Pennsylvania Center for East Asian Studies is pleased to announce that it will offer the Phila-Nipponica Project, the 14th year in a series devoted to preparing educators in schools in the Philadelphia region to convey knowledge and understanding of Japan to their students and colleagues. In 2015, the Center for East Asian Studies will offer a "graduate" program with a focus on: Teaching about Japan's Religious Culture. Teachers who have previously participated in Phila-Nipponica (or have equivalent experience through the study or travel of Japan), are invited to apply. <http://ccat.sas.upenn.edu/ceas/>

**PENN STATE LANGUAGE INSTITUTE** From website: The Language Institute at Penn State offers summer language programs designed for persons seeking to develop proficiency in a foreign language, including English as a second language. These programs consist of sequences of formal language courses offered for full academic credit. The Institute's programs are of interest to Penn State undergraduate and graduate students in a range of academic and professional programs, including the liberal arts, the sciences, engineering, business administration, agriculture, communications, health and human development, and many others. The Institute welcomes students from other academic institutions, as well as military personnel, professionals, and anyone else looking to build competency in a foreign language. High school students with strong academic aspirations may enroll in the Institute as long as they are at least 15 years old. <https://language-institute.outreach.psu.edu/about/high-school-and-homeschool-students/>

**RASSIAS FOUNDATION LANGUAGE PROGRAM @ DARTMOUTH** From website: The Rassias Method is a unique approach that speeds language learning, increases language retention and has you speaking and understanding in "Ten days that make a difference." Originally developed for Peace Corps training, it has been adapted by language teachers in North America, Europe, Africa and Asia. <http://rassias.dartmouth.edu/>

**SUMMER INTENSIVE LANGUAGE STUDIES @ BELOIT** From website: If you are serious about learning a language, consider one of the nation's finest summer intensive language programs - the Center for Language Studies at Beloit College. Our program aims to expand your understanding of a fascinating world culture as you move toward mastering the language it envelops: language and culture go hand in hand. If you are serious about learning a language, consider one of the nation's finest summer intensive language programs - the Center for Language Studies at Beloit College. Our program aims to expand your understanding of a fascinating world culture as you move toward mastering the language it envelops: language and culture go hand in hand. Success in the program better positions you to assume confident, active citizenship in a thoroughly interdependent world. It prepares you to engage a part of that world on its own terms, in its own language, through its own cultural sensitivities. Success in the program better positions you to assume confident, active citizenship in a thoroughly interdependent world. It prepares you to engage a part of that world on its own terms, in its own language, through its own cultural sensitivities. <https://www.beloit.edu/cls/program/>

**UNIVERSITY OF VIRGINIA SUMMER LANGUAGE INSTITUTE** From website: The Summer Language Institute offers eight-week courses in Arabic, Chinese, French, German, Hebrew, Italian, Latin, Russian, Spanish, and Tibetan. Students attend classes five days a week, seven and a half hours a day. Listening, speaking, reading, and writing skills are developed in a student-centered environment.  
<http://www.virginia.edu/summer/SLI/>

### GENDER FOCUSED OPPORTUNITIES

(Many are for young women interested in STEM related fields.)

**ALL GIRLS/ALL MATH** From website: ALL GIRLS/ALL MATH is offered at the University of Nebraska-Lincoln. The Summer Mathematics Camp for High School Girls provides a stimulating and supportive environment for girls to develop their mathematical ability and interest. The ALL GIRLS/ALL MATH summer camp has been offered since 1997. Camp participants, girls grades 10-12, will learn about the exciting mathematics of Codes. The girls will work with women mathematics professors and graduate students, and interact with peers who share an interest in mathematics. They stay in a UNL residence hall and are chaperoned by a female mathematics graduate and undergraduate student.  
<http://www.math.unl.edu/programs/agam>

**THE CURIE ACADEMY @ CORNELL UNIVERSITY** From website: The CURIE Academy is a one-week summer residential program for high school girls who excel in math and science. The focus is on juniors and seniors who may not have had prior opportunities to explore engineering, but want to learn more about the many opportunities in engineering in an interactive atmosphere.  
<https://www.engineering.cornell.edu/engdiversity/prospective-students-outreach/high-school-summer-programs>

**DOUGLASS PROJECT FOR RUTGERS WOMEN IN MATH, SCIENCE, AND ENGINEERING** From website: Established in 1986, the Douglass Project for Rutgers Women in Math, Science & Engineering is an award-winning program that provides support and encouragement for undergraduate women pursuing degrees and careers in mathematics, science, engineering, and technology, with the ultimate goal of increasing the participation of Rutgers women in STEM. The Douglass Project provides women in the STEM fields with personal, professional, and leadership development opportunities and provides support systems that encourage women to recognize their abilities, attain their educational goals, and ultimately pursue careers in the STEM fields. <https://douglass.rutgers.edu/douglass-project-rutgers-women-math-science-and-engineering>

**EXPLORING ENGINEERING AT THE UNIV OF MD (E2@UMD)** From website: Exploring Engineering at the University of Maryland (E2@UMD) is a one-week summer program for high school women (rising juniors and seniors) who are considering engineering as a possible major and career. You will live on campus for one week and explore the world of engineering through hands-on activities, laboratory experiments, informative workshops, team challenges and seminars with professional engineers.  
<http://www.wie.umd.edu/k12/e2atumd>

**GIRL'S LEADERSHIP WORLDWIDE** From website: Each year, the Eleanor Roosevelt Center holds two exciting and transformational nine-day summer camp programs for teen girls who desire to make a difference in their own lives, their communities and the world. With Eleanor Roosevelt's life and legacy as a model, girls diverse in culture and geography bring their passion and leadership potential to life. Girls experience interactive workshops, field trips to New York City, the United Nations and other significant sites, while building supportive relationships with inspiring female mentors and peers. Girls who will be entering the 10th or 11th grades are eligible. <http://glw2015 ervk.org/glw/about-glw/>

**SMITH SUMMER SCIENCE AND ENGINEERING PROGRAM (SSEP)** From website: The Smith Summer Science and Engineering Program (SSEP) is a four-week residential program for exceptional young women with strong interests in science, engineering and medicine. Each July, select high school students from across the country and abroad come to Smith College to do hands-on research with Smith faculty in the life and physical sciences and in engineering. Established in 1990, the SSEP annually serves approximately 100 girls. Since its inception, nearly 1,800 high school students have participated. More than half of these students have been awarded need-based financial aid. After the program, participants return to high school better prepared to tackle tough science courses and better informed about what to expect in college. [http://www.smith.edu/summer/programs\\_ssep.php](http://www.smith.edu/summer/programs_ssep.php)

**WIE LEAD ACADEMIES AT THE UNIVERSITY OF MARYLAND** From website: The Women in Engineering Leadership Enhancement, Application and Design Academies have been created to provide high school students with the opportunity to spend a day learning and applying principles related to a particular engineering discipline offered at the University of Maryland. <http://www.wie.umd.edu/k12/lead-academies>

**WOMEN IN ENGINEERING AT AUBURN UNIVERISTY** From website: The camp will focus on issues important to women in the field of engineering. Sessions will be led by women engineering organizations, faculty members, alumni, and current Auburn engineering students. <http://www.eng.auburn.edu/outreach/k-12/eng-summer-camp.html>

**WOMEN IN ENGINEERING PROGRAM @ MICHIGAN TECH** From website: This program is a weeklong investigation of engineering careers in mechanical, computer, environmental, electrical, chemical, biomedical, civil, geological, materials, and related disciplines. Explore engineering by constructing a building strong enough to withstand an earthquake, creating your own message encryptor (share secrets only your friends can read), and more. Get the inside scoop from female role models working in engineering fields. Work in teams to solve engineering problems and complete engineering projects. Learn about the college application process and tips for succeeding in university engineering programs. Enjoy team competitions, a variety show, and tons of outdoor activities in Michigan's beautiful Keweenaw Peninsula. Upon request, arrangements can be made for you to speak with faculty from disciplines or areas in which you have special interests, as well as admissions and financial aid staff. <http://www.syp.mtu.edu/>

**WOMEN IN ENGINEERING SUMMER CAMP @ UNIVERSITY OF DAYTON** From website: The Women in Engineering Summer Camp at the University of Dayton is a Sunday-through-Friday experience that gives you the chance to dabble in engineering through hands-on, learn-by-doing activities. Guided by University professors, you'll conduct experiments and use your creativity to make cool stuff in our classrooms and laboratories. You'll meet women engineers and visit a job site. [https://www.udayton.edu/engineering/k-12-programs/women\\_in\\_engineering\\_summer\\_camp/index.php](https://www.udayton.edu/engineering/k-12-programs/women_in_engineering_summer_camp/index.php)

**WOMEN'S TECHNOLOGY PROGRAM @ MIT** From website: The MIT Women's Technology Program (WTP) is a rigorous four-week summer academic and residential experience where female high school students explore engineering through hands-on classes, labs, and team-based projects in the summer after 11th grade. Sixty participants (40 for EECS and 20 for ME) are selected from a nationwide applicant

pool of the top female 11th grade math and science students. For summer 2014 we received 367 complete applications. Students must reside in the U.S. (or be U.S. citizens if living outside the U.S. ). We are looking for students who are not yet certain about their future college majors, and who would like to explore engineering and computer science to determine whether these fields might be of interest. <http://wtp.mit.edu/>

**YOU GO GIRL! @ MIT** From website: You GO Girl turns 17 this year! Our four-day summer program is an on-campus introductory science and engineering program for girls entering ninth grade in the fall. The camp provides an introductory sampling of hands-on science and engineering activities mixed with high school preparatory sessions. Girls build motorized LEGO cars, experiment with strobe-light photography, “breed” LEGO fish cells to understand the relationships between genes and traits, and more. Any girl who can commute to our program on the MIT campus is eligible to attend. There is a suggested materials donation of \$40.00. <https://edgerton.mit.edu/yougogirl>

## GOVERNMENT, LAW AND INTERNATIONAL RELATIONS

**International Relation:** From website: Welcome to the Pre-College International Relations Program! This is a particularly fascinating time to study international affairs. With a global pandemic creating unprecedented challenges for international travel, trade, economics, and global public health, we are relying on experts in international affairs and policy to help solve the crisis. With our International Relations intensive, you will be immersed in a cohort of peers and world-class faculty who share your passion for solving problems on a global scale.

During the program, rising high school juniors and seniors will experience Tufts University’s distinctive approach to the study of International Relations, earn college credit, and create a path toward future scholastic and professional goals. Students will analyze current events and theoretical frameworks for understanding IR through interactive seminars from experts; interrogate key concepts in small, collaborative discussion sections; begin developing the language and communication skills that form the foundation of international affairs; work together in teams to handle simulated crisis situations; conduct research using academic resources available from Tufts’ Tisch Library; and compose a college-level research paper with guidance from advanced classroom assistants and a research librarian. After two weeks of intensive classes, students will expand their network of peers with a passion for IR and gain insightful mentors while acquiring a deep familiarity with collegiate academics and working with Tufts’ highly distinguished faculty and exceptional resources. <https://universitycollege.tufts.edu/high-school/programs/international-relations>

**INTERNATIONAL RELATIONS PROGRAM AT GEORGETOWN** From website: Renowned as a center of international dialogue, Georgetown is a venue that international leaders often choose to state their positions and calls for action. You will study at one of the oldest universities in the world, learn from distinguished faculty and gain valuable hands-on experience that will help you better understand and appreciate today’s global issues and challenges. Learn and live in Washington, DC—a center for international relations. <https://summer.georgetown.edu/programs/SHS14/international-relations-academy>

**JOHN F. KENNEDY INSTITUTE OF GOVERNMENT (CHOATE)** From website: Established to honor the memory of President Kennedy — a member of Choate’s Class of 1935 — The John F. Kennedy '35 Institute in Government is designed to stimulate your curiosity about public policy and your desire to serve the public interest. The highlight of the program is 5 days in Washington, D.C. As a Kennedy Institute participant, you will see government in operation by watching House and Senate debates; observing committee hearings on Capitol Hill; and spending time with officials in The White House and Supreme Court. You will get a real insider’s feel for politics by meeting with representatives of interest groups, national political parties, and the media. Applicants for The Kennedy Institute should have completed their freshman year in high school and a course in U.S. history or its equivalent. Knowledge of politics is not necessary, but your desire and willingness to be engaged in various topics — politics, economics, or international affairs — is essential. <http://www.choate.edu/page.cfm?p=623>

**MARYMOUNT UNIVERSITY’S CRIMINAL JUSTICE SUMMER INSTITUTE IN WASHINGTON, D.C.**

From website: Marymount’s expert faculty will facilitate examination of such topics as the role of the media in influencing public perceptions and public policy in areas like juvenile justice, the death penalty, and gun control. Guest speakers – including criminologists, federal agents, local law enforcement officers, and forensic scientists – will supplement the classroom instruction with real-life examples and anecdotes. <https://info.marymount.edu/hsprograms/>

**UCLA MOCK TRIAL SUMMER INSTITUTE** From website: This week-long program is a great way to broaden your knowledge base, explore college and career options, boost your self-confidence and powers of persuasion - all while making new friends and having fun! Come to Los Angeles to train with the National Champion UCLA Mock Trial Team Coach and Team Members! Learn effective trial advocacy techniques and improve your public speaking skills. UCLA has won the Collegiate National Championship four times in the last decade (most recently 2014) and you will have the chance to work with both students and coaches. <http://www.summer.ucla.edu/institutes/MockTrial>

**UNIVERSITY OF TEXAS EL PASO LAW CAMP** From website: UTEP's Patricia and Paul Yetter Law School Preparation Institute offers a High School Law Camp each year. The LSPI HSLC is a three-week, all-day summer program that gives high school students an opportunity to explore a career in law and prepare for college. Camp participants engage in a variety of activities, including case law instruction, field trips to legal community organizations, professional skills development, and a mock trial exercise. The LSPI HSLC takes place on the UTEP campus. <https://www.utep.edu/liberalarts/lspi/high-school/high-school-law-camp.html>

**SHIMER PRELAW ACADEMY** From website: The Shimer Prelaw Academy offers motivated high school students the opportunity to experience what law school classes are like, learn about different legal practice areas, and explore the fundamentals of both civil and criminal law. This week-long program will challenge students to think critically, spot legal issues, and construct arguments. Students will read actual cases and participate in discussions with practicing attorneys. The Shimer Prelaw Academy is an eye-opening experience, whether you have always dreamed of becoming an attorney or if you are just curious to learn more about the legal process. <https://www.iit.edu/academics/pre-college-programs/summer/daytime/summer-prelaw-institute>

## GREAT BOOKS

**AMHERST GREAT BOOKS SUMMER PROGRAM** From website: Find your voice in the classroom. The Great Books Summer Reading Program gives students the opportunity to grow academically and socially as they prepare for high school or college. Open discussions encourage students to express themselves and give power to their ideas. Students gain confidence in their ability to read a text closely and express their ideas clearly both verbally and in writing.

[www.greatbookssummer.com/programs/campuses/amherst-college/](http://www.greatbookssummer.com/programs/campuses/amherst-college/)

**HIGH SCHOOL GREAT BOOKS PROGRAM AT THOMAS AQUINAS (CALIFORNIA)** From website: Each summer for two weeks, high school students from around the country join members of the teaching faculty on the campus of Thomas Aquinas College for spirited conversation, engaging firsthand some of the best works of the past 2,500 years. They read and discuss works selected from the masters of the Western intellectual tradition, including Plato, St. Athanasius, Euclid, Sophocles, O'Connor, Shakespeare, St. Thomas Aquinas and Pascal. It is a time for forging new friendships, for enjoying the give and take of rational argument, and for pursuing the truth, which civilizes, ennobles, and liberates.

<http://www.thomasaquinas.edu/admission/high-school-summer-program>

**ARETE PROGRAM AT THE UNIVERSITY OF DALLAS** From website: According to the great texts of the past, the noble life requires removing all scales from one's eyes and seeing clearly. The next step is to "do" the right thing: to be able to choose, in sometimes ambiguous circumstances, the path that leads to freedom rather than enslavement. This twofold process, one which encourages us to live nobly, has formed the basis of Liberal Education and constitutes the foundation on which civilization rests. In introducing you to the essential texts of Western Civilization and allowing you to reflect on works of fine art, film and music, Arête will offer you a taste of how education frees us.

<https://studyaway.udallas.edu/index.cfm?FuseAction=Programs.ViewProgramAngular&id=10008>

**LATIN IN ROME PROGRAM AT THE UNIVERSITY OF DALLAS** From website: Our purpose is to stimulate students - to awaken an interest in the history, politics, art and architecture of Rome, while engaged in advanced study of Latin and the people who spoke it. Most of the places we visit will be the immediate subject of the tutorial sessions. In such a setting, grammar becomes a map to a familiar place, and vocabulary a newly discovered old friend. Above all, we strive to preserve what some have called a "dead language" in living minds. And, as you probably know, such study has always been thought to be the irreplaceable foundation of a truly liberal education.

<https://udallas.edu/constantin/academics/programs/classics/programs.php>

**P.E.A.K. AT WYOMING CATHOLIC COLLEGE** From pamphlet: Experience 10 days of classes with WCC professors, along with a 3-day, 2-night backpacking trip. There will be horseback riding, caving, canoeing, July 4 th fireworks, rock climbing, rappelling, daily Mass, confession, adoration, and great new friends. For more information, contact the admissions office at <https://wyomingcatholic.edu/come-peak-with-us-this-summer/> or by phone (307-332-2930).

**P.E.A.K. ASCENT AT WYOMING CATHOLIC COLLEGE** From pamphlet: Experience 4 days of classes with WCC professors, along with a 5-day, 3-night backpacking trip. There will be horseback riding, caving, canoeing, July 4 th fireworks, rock climbing, rappelling, daily Mass, confession, adoration, and great new friends. For more information, contact the admissions office at

<https://wyomingcatholic.edu/admissions/peak-2022/> or by phone (307-332-2930)

**THE SUMMER ACADEMY AT ST. JOHN'S COLLEGE** From website: The St. John's College Summer Academy offers rising high school juniors and seniors the opportunity to experience the distinctive community of St. John's College through an immersive, weeklong course of study based upon a specific intellectual theme. Students will delve into a diverse collection of primary texts and engage in stimulating discussions chosen to highlight questions central to the human mind and spirit. With exciting classroom activities and numerous off-campus group excursions, the Summer Academy program also provides fun opportunities to build friendships with like-minded peers both in and out of the classroom. <https://www.sjc.edu/summer-seminars> <https://www.sjc.edu/summer-academy>

## HUMANITIES: HISTORY AND PHILOSOPHY

**BIBLICAL PHILOSOPHY & HEBRAIC HERITAGE** From website: This program will guide Christian students from The King's College and other universities to appreciate the value of the "Judeo" in the "Judeo-Christian" intellectual tradition. The program features six weeks of course work based at The Herzl Institute in Jerusalem, including visits to key historical and archaeological sites and museums to enrich the Scriptural and Jewish cultural components. <https://www.tkc.edu/admissions/summer-academy/>

**THE CITIES OF GOD & MAN SUMMER ACADEMY AT KING'S COLLEGE (NY)** From website: The Cities of God & Man Academy is designed for high school students who love ideas and want to understand the philosophical ideas at the foundation of modern society. Study ideas and see the sites that make NYC famous! <https://www.tkc.edu/summer-kings> **GENESIS AT BRANDEIS UNIVERSITY** From website: Genesis is a summer program for high school students founded at Brandeis University in 1996 with the support from Steven Spielberg's Righteous Person's Foundation. Genesis is known as one of the premier Jewish educational programs for high school students in North America. Students engage in programs that integrate Jewish studies, the arts, humanities and community building. Topics include culinary arts, gender and sexuality, business and technology, science, and world relations. <https://www.tkc.edu/admissions/summer-academy/>

**PRE-COLLEGIATE SUMMER PROGRAM IN EARLY AMERICAN HISTORY AT THE COLLEGE OF WILLIAM AND MARY** From website: This fast-paced, in-depth and immersive course for high school juniors and seniors will offer a variety of approaches to studying the past, but the chief feature will be classes conducted "on site" at the abundant historic places in the Chesapeake region. Readings and classroom work at the College will set the stage for the site visits by providing essential background on the wider context of American development. Students will take one course, History 216, and may choose from the topic From the Founding of Jamestown through the American Revolution, or From the American Revolution through the American Civil War. <https://www.wm.edu/as/niahd/precol/index.php>

**THE ROOTS AND HISTORY OF AMERICAN LIBERTY AT HILLSDALE COLLEGE** From website: Rising high school juniors, seniors, and talented sophomores are invited to earn college credit while studying with Hillsdale faculty in an intensive two-week summer travel seminar on the origins and development of the American experiment of liberty under law. Course destinations include Hillsdale, MI; Gettysburg and Philadelphia, PA; and Washington, D.C. <http://www.hillsdale.edu/admissions/high-school>

**LIBERTY AND LEARNING YOUTH CONFERENCE AT HILLSDALE COLLEGE** From website: Students are invited to study the principles of Constitutional government and the Second Amendment with Hillsdale Faculty while practicing marksmanship at the Hillsdale College John Anthony Halter Shooting

Sports Education Center. A Constitutional Essay contest will award one participant a \$4,000 Hillsdale College scholarship. <http://www.hillsdale.edu/admissions/high-school>

**THE UNIVERSITY FELLOWS GREAT IDEAS SUMMER INSTITUTE** From website: GSI is a unique week-long academic experience for high school students hosted on the campus of Samford University in Birmingham, Alabama. This institute offers an opportunity for intellectually ambitious students to enjoy the energy of a college classroom, engage ideas that form the essence of the Western Intellectual Tradition, and develop friendships with exceptional high school students from around the country. <https://www.samford.edu/university-fellows/summer-programs/>

**LEADERSHIP THE AMERICAN LEGION ARIZONA BOYS STATE** From website: American Legion Boys State is among the most respected and selective educational programs of government instruction for U.S. high-school students. A participatory program in which students become part of the operation of local, county and state government, Boys State was founded in 1935 to counter the socialism inspired Young Pioneer Camps. The program was the idea of two Illinois Legionnaires, Hayes Kennedy and Harold Card, who organized the first Boys State at the Illinois State Fairgrounds in Springfield. American Legion Auxiliary sponsors a separate but similar program for young women called Girls State. If interested, see your college counselor to be considered for nomination. <https://azboysstate.org/Apply>

**THE AMERICAN LEGION ARIZONA GIRLS STATE** From website: The Girls State program provides young women of high school age the opportunity to come together to study state government. It teaches them to understand that they are an integral part of the political process. It helps them realize they have a responsibility to make tomorrow a better time, the world a better place, and that this job is up to them regardless of religious or political beliefs. It gives them the opportunity to live together under their own government, which is executed entirely by them, and to deal with problems as they arise. They will see the political process work effectively or have setbacks. If interested, see your college counselor to be considered for nomination. <http://www.azgirlsstate.com/>

**CENTER FOR THE TALENTED YOUTH: CIVIC LEADERSHIP INSTITUTE** From website: Through an introductory course in Service, Leadership & Community Transformation, students are challenged to learn in new ways and apply their skills in real-world settings. Several times a week, in their class groups, students engage in service projects that span neighborhoods, organizations, and approaches to addressing social problems. <http://cty.jhu.edu/summer/grades7-12/leadership/>

**CENTER FOR TALENTED YOUTH: GLOBAL ISSUES IN THE 21ST CENTURY** From website: As citizens living in the twenty-first century, we face numerous challenges and opportunities. In an increasingly interconnected world, choices we make locally have significant global implications. CTY's program for 10th through 12th graders focuses on key global issues in the twenty-first century. By bringing together academically talented students from all over the country to wrestle with major issues facing the world today, our summer programs are able to offer an unusual educational experience, one geared both to the students' high abilities and to their need for peers who share their academic abilities and their love of learning. Princeton University, a premier educational institution and the United States' fourth oldest college, offers an outstanding setting for our program. As you read through this catalog, you will learn more about what we have to offer and how our courses can help highly able students explore their potential to the fullest. If you have already experienced our summer programs, we welcome you back. <http://cty.jhu.edu/summer/grades7-12/princeton/>

**CONGRESSIONAL PAGE PROGRAM** From website: The Senate gained its first page in 1829, a nine-year-old boy named Grafton Hanson who was appointed by Senator Daniel Webster. Throughout the 19th century, Senate pages served as messengers and general helpers. Usually around twelve years old, early pages were often local orphans or children of widowed mothers and their Senate income helped

the family. Today, Senate pages come from all 50 states. Still appointed and sponsored by a senator, they must be high school juniors, at least sixteen years old, and attend school. Senate page duties consist primarily of delivery of correspondence and legislative material within the Congressional complex. Other duties include preparing the chamber for Senate sessions, and carrying bills and amendments to the desk. Pages attend classes in the early morning at the United States Senate Page School, a program fully accredited by the Middle States Association of Colleges and Schools. Contact your senator's office for more information on applying to be a Senate Page.

[http://www.senate.gov/reference/reference\\_index\\_subjects/Pages\\_vrd.htm](http://www.senate.gov/reference/reference_index_subjects/Pages_vrd.htm)

## LEADERSHIP

**SEMINAR AT NOTRE DAME UNIVERSITY** From website: Notre Dame Leadership Seminars explore topics affecting the global community. The courses are centered on vibrant discussion and a robust exchange of ideas. This creates a context in which students are encouraged to examine their own conclusions and hone their own leadership capacities by improving their communications and analytical skills. Expenses for students accepted to Leadership Seminars—including transportation to and from Notre Dame— will be paid for by the University. Approximately 100 students are admitted to Leadership Seminars each year, and students are eligible to receive one college credit upon completion of the program. Topics from past years included "Science, Ethics, and Responsibility," "Global Issues," and "American Arts, Pop Culture, and Social Change." <http://precollege.nd.edu/leadership-seminars/>

**WORLD AFFAIRS YOUTH SEMINAR** The World Affairs Youth Seminar, conducted by faculty, staff, and students from Auburn's College of Education and members of the Persistent Issues in History Network, is open to rising 10th – 12th graders and uses the Model United Nations (MUN) forum to examine global issues in a "real world" context. Participants assume the role of country delegates and strive to accurately represent the viewpoints of their assigned country in daily MUN General Assembly sessions. <http://www.auburn.edu/outreach/opce/auburnyouthprograms/wa.htm>

## MATHEMATICS, SCIENCE AND ENGINEERING

**B.E.S.T. SUMMER PROGRAM AT THE UNIVERSITY OF DAYTON** From website: Explore your interests with the B.E.S.T. summer program – a special blend of academic and hands-on learning centered around business, engineering, science and technology. As part of this program, you will get a head start on college by taking six hours of college credit, which can be transferred to any college or university. You'll also gain a global perspective and interact with students from around the world. <https://udayton.edu/engineering/k-12-programs/index.php>

**RENSELAER AEROSPACE ENGINEERING SUMMER PROGRAM** From website: Explore the field of aerospace engineering, tour Rensselaer Polytechnic Institute's top-tier research labs and learn how experimental data are collected by running wind tunnel tests. Participants will apply their new aerodynamic and flight mechanic knowledge by building a balsa glider and an electric radio controlled airplane which will be flight tested on the final day of the program. <https://info.rpi.edu/pre-college-initiatives/preface-rensselaer-summer-engineering-design-program-2021>

## **AEROSPACE ASTRO ENGINEERING PROGRAM AT EMBRY-RIDDLE AERONAUTICAL UNIVERSITY**

From website: Our “Astronautics Track” Aerospace Engineering summer program places a focus on the fundamental skills needed to develop space mission concepts, and how these concepts relate to Astronautical Engineering. This is a mathematics intensive program where students will be challenged to learn and have a better understanding of the world of rockets, spacecraft, satellites, orbits, and the benefits that have been derived and are currently being developed by the American Spaceflight Program! <https://summercamps.erau.edu/camps>

**UNIVERSITY OF ARIZONA KEYS PROGRAM KEYS** High School Summer Internship Program is committed to providing hands-on research opportunities to talented students from diverse backgrounds. By exposing them to all facets of science research at the University of Arizona, KEYS fosters knowledge, skills, and confidence and helps students define their degree and career goals...The program concludes with the KEYS Research Showcase, where students present their results to their families, UA scientists, and program sponsors. Previous KEYS interns report that the program has changed their lives and taught them that they are capable of making important contributions to science. <https://keys.arizona.edu/>

**UNIVERSITY OF ARIZONA MED-START PROGRAM** From website: Med-Start is a summer academic enrichment program for any 11th grade Arizona high school student interested in a health career. Participants prepare for college through classes and explore career opportunities. Only 40-60 students accepted per year. Students participate in the program during the summer between their junior and senior years. <https://diversity.uahs.arizona.edu/med-start-health-careers-program-0>

**AMC MATHEMATICAL OLYMPIAD SUMMER PROGRAM (MOSP) at the UNIVERSITY OF NEBRASKA** From website: The rigorous curriculum and daily schedule of the MOSP is designed to achieve the goals of the program. The MOSP will give 24 students, including the six 1999 IMO team members and two alternates extensive practice in solving mathematical problems which require deeper analysis than those solved by students in even the best American high schools. Full days of classes and extensive problem sets will give students thorough preparation in several important areas of mathematics which are traditionally emphasized more in other countries than in the United States. These topics include combinatorics arguments and identities, generating functions, Pigeonhole Principle, inclusion exclusion, Ramsey's Theorems, graph theory, recurrence relations, telescoping sums and products, probability, number theory, polynomials, theory of equations, complex numbers in geometry, algorithmic proofs, combinatorial and advanced geometry, functional equations and classical inequalities. Acquaintance with and understanding of these topics is important for reasonable performance in an IMO. The MOSP program ensures that the IMO record of the United States properly reflects the energy and creativity of its brightest students. Following the MOSP, the six-member USA team will travel to the IMO site. <https://www.maa.org/math-competitions/invitational-competitions>

**AMS MATHEMATICAL PROGRAMS FOR HIGH SCHOOL STUDENTS** From website: Summer programs that help gifted students explore the world of mathematics research (most are residential programs accepting applications nationwide). - See more at: <http://www.ams.org/programs/students/high-school/emp-mathcamps#sthash.PxuGAmnc.dpuf> <http://www.ams.org/programs/students/high-school/emp-mathcamps>

**AWESOME MATH** From website: A three-week intensive summer camp for mathematically gifted students from around the globe. An initiative in response to parents and teachers of bright students who have not yet shone at the Olympiad level, as well as of those who would like to expand what they have learned in programs such as MATHCOUNTS. These talented students wish to hone their problem solving skills in particular and further Their mathematics education in general. Many participants seek to

improve their performance on contests such as AMC10/12, AIME, or USAMO.

<https://www.awesomemath.org/summer-program/>

**BIO@TECH SUMMER INSTITUTE FOR INVESTIGATIVE BIOLOGY** From website: During the summer of 2014 Georgia Tech School of Biology and Center for Education Integrating Science, Math and Computing offers BIO@TECH, an intensive three-week investigative biology experience for high school students with strong interests in the biological sciences.

<http://www.biology.gatech.edu/undergrad/biotech>

**BROWN ENVIRONMENTAL LEADERSHIP LAB IN HAWAII** From website: This spring, Brown University offers curious high school students a unique opportunity to explore Hawaiian culture, tropical ecology, and leadership skills. Traveling from the mountains to the sea, students will explore the Big Island's diverse terrestrial and marine ecosystems, studying geology, forest ecology, aquatic life, cultural studies, and land use. Participants will stay at two scenic locations during the course, Volcanoes National Park and the South Kona Coast. These sites are not only of important cultural significance but provide easy access to the dynamic, living laboratory that is Hawai'i. Leadership content is integrated into this immersive course, enabling students to develop and practice socially responsible leadership both during the program and beyond. <http://www.brown.edu/academics/pre-college/bell/hawaii/>

**CANADA/USA MATHCAMP** From website: Canada/USA Mathcamp is an intensive 5-week-long summer program for mathematically talented high school students, designed to expose these students to the beauty of advanced mathematical ideas and to new ways of thinking. More than just a summer camp, Mathcamp is a vibrant community, made up of a wide variety of people who share a common love of learning and passion for mathematics. At Mathcamp, students can explore undergraduate and even graduate-level topics while building problem-solving skills that will help them in any field they choose to study. <http://www.mathcamp.org/>

#### **CHEMISTRY AND MEDICINE SUMMER SCHOLARS PROGRAM AT RENSSELAER POLYTECHNIC**

From website: The Chemistry and Medicine Summer Scholar program is a two week enrichment program that will show how chemistry plays an important role in discovering new medicine. During this hands-on program, students will solve problems mainly on organic chemistry related to the synthesis of medicine. <https://rpi.regfox.com/polymer-chemistry-research-experience>

**CLARK SCHOLARS PROGRAM @ TEXAS TECH** From website: The Clark Scholar Program is an intensive seven week summer research program for highly qualified high school juniors and seniors. The Program at Texas Tech University helps the Scholars to have a hands-on practical research experience with outstanding and experienced faculty. The Scholars will receive a \$750 tax-free stipend and room and board. The Program includes fun activities, weekly seminars and field trips. This Program provides opportunities for research in all academic areas in the university.

<http://www.depts.ttu.edu/honors/academicsandenrichment/affiliatedandhighschool/clarks/>

**CLARK UNIVERSITY SUMMER SCIENCE PROGRAM** From website: The Human-Environment Regional Observatory (HERO) program is a unique undergraduate graduate-faculty experience that engages in research on human-environment relationships in Massachusetts. HERO Fellows conduct hands-on research under the mentorship of Clark University faculty. The research conducted by HERO Fellows often leads to scholarly publications, presentations at academic conferences across the USA, and awards and honors. This eight-week curriculum is sponsored by the U.S. National Science Foundation through its Research Experiences for Undergraduates Site (REU Site) program. HERO Fellows analyze the causes and consequences of global environmental changes at local scales in faculty-led research projects. Each Fellow is paired with a Clark faculty mentor and other researchers on the HERO team in one of two research domains. Fellows will learn how to use various research methods, including GIS, remote

sensing, geostatistical modeling, interviews and focus groups.

<https://www.clarku.edu/schools/sps/programs/summer-session/>

**CLEMSON VET CAMP** From website: Learn more about animals and animal industries through hands-on experiences. This exciting opportunity will include live animal veterinary skills by milking dairy cows, bottle feeding calves, working beef cattle, shearing sheep, artificial insemination in pigs, and handling of horses. Learn how to dissect post-mortem animals, suture, ultrasound, perform blood tests and evaluate histological samples. <http://www.clemson.edu/summer/summer-science/coursedescriptions/VetCamp.html>

**THE CNSI NANOSCIENCE LAB SUMMER INSTITUTE** The CNSI Nanoscience Lab Summer Institute is an exclusive summer workshop for high school students interested in advanced science and technology. During this five day program, students have the unique opportunity to explore questions similar to those currently investigated by the scientific community. The program involves hands-on experiments that combine vigorous scientific methodologies and techniques with projects that are both fun and exciting. Moreover, these experiments, designed by UCLA researchers, teach students the key concepts of nanoscale phenomena that make nanoscience and nanotechnology one of the most exciting fields of research today. <http://www.summer.ucla.edu/institutes/NanoScienceLab>

**CONSTRUCTION MANAGEMENT AT CLEMSON UNIVERSITY** From website: Join us for an exciting introduction to the construction world. Construction management combines concepts from the engineering, design and management disciplines in order to effectively and efficiently build a project from, quite literally, the ground up. Students will learn the basics of plan reading along with critical soft skills (e.g., conflict resolution, communication, critical thinking, etc.) for managing the wide range of participants involved in the construction process. Student teams will engage in multiple competitive simulations, a hands-on project and two site visits to projects under construction on Clemson campus. <http://www.clemson.edu/summer/summer-science/coursedescriptions/Construction.html>

**CORNELL OCEANOGRAPHY OF THE GULF OF MAINE** From website: A joint venture between Sea Education Association & Cornell University's Shoals Marine Laboratory, Oceanography of the Gulf of Maine allows students to study offshore oceanography while making a transit from Cape Cod to coastal Maine, and then to study the intertidal zone of Appledore Island, Maine. Two Cornell University credits are issued for completion of this program. [http://www.sml.cornell.edu/sml\\_cc\\_ogm2.html](http://www.sml.cornell.edu/sml_cc_ogm2.html)

**CORNELL RESEARCH APPRENTICESHIP IN BIOLOGICAL SCIENCES** From website: The Cornell University Research Apprenticeship in the Biological Sciences (RABS) offers serious, research-oriented students the rare opportunity to join a top-notch laboratory at one of the world's leading research institutions. Cornell biomedical scientists strive for excellence and use their knowledge to solve global problems and benefit society. During this innovative, intensive, and highly selective program, you will become part of the renowned biomedical research community at Cornell's Ithaca campus, studying under the guidance of distinguished Cornell faculty members as you pursue research in an area of your choosing. <http://www.sce.cornell.edu/sc/programs/index.php?v=170>

**ENGINEERING NEW FRONTIERS AT THE CATHOLIC UNIVERSITY OF AMERICA** From website: At ENF, students will work closely with CUA engineering faculty members to explore the wide variety of engineering opportunities in our society. Through classes, demonstrations, and hands-on experiments, students will experience what college engineering majors and professional engineers do. Living on campus, students also get a "taste" of college and exposure to the best of Washington, D.C., including special museum tour, sporting events, and various other safe recreational activities. <http://summer.cua.edu/precollege/>

**ENGINEERING SUMMER ACADEMY COURSE AT THE OHIO STATE UNIVERSITY** From website: The Engineering Summer Academy is a three-week program consisting of 72 hours of classroom and laboratory instruction. This academic experience includes problem solving and introduction to computer systems, including CAD, spreadsheets, and editors. The course, Engineering 1186.02, includes methods of problem solving, algorithmic development, and introduction to three-dimensional orthographic and pictorial visualization and presentation. To be selected for this program, students must have completed their junior year in high school. Additionally, it is recommended that students rank in the top 10 percent of their high school classes and show strength in mathematics as demonstrated by the PSAT.

<https://engineering.osu.edu/early-engagement>

**EPIC (ENGINEERING POSSIBILITIES IN COLLEGE) AT CAL POLY, SAN LUIS OBISPO** From website: Are you interested in building a rocket, growing new blood vessels, creating an Android phone app, developing a solar car or designing a water filter for Third World countries? These creative opportunities and many more await you at EPIC — Engineering Possibilities in College — a one-week summer camp at Cal Poly for students in grades 7 to 12. EPIC will introduce you to the world of engineering in hands-on labs taught by university professors and on tours of local engineering companies led by industry professionals. <https://epic.calpoly.edu/>

**ENVIRONMENTAL STUDIES SUMMER YOUTH INSTITUTE (ESSYI)** From website: Located in the heart of New York's Finger Lakes region, on beautiful Seneca Lake, the Environmental Studies Summer Youth Institute at Hobart and William Smith Colleges offers a two-week, college-level interdisciplinary program for talented high-school students. You will conduct research with faculty members in a variety of locations: on the HWS William F. Scandling (a 65-foot vessel on Seneca Lake), in streams, quaking bogs, the Adirondack Mountains, and the Colleges science laboratories. Working in the field, in laboratories, in classrooms, and on a four-day camping trip, you will explore a range of topics in environmental policy, economics, and ethics, and come to see the natural world through the eyes of artists, historians, philosophers, and scientists. The program is designed as an introduction to a variety of environmental issues and perspectives on nature and our environment. ESSYI provides students with an understanding of the different perspectives and disciplines from which a person can explore the environment and environmental issues. This experience often enables ESSYI alums to make much more informed decisions about majors, minors and other interests in college. <http://essyi.hws.edu/>

**EUGENE AND RUTH ROBERTS SUMMER STUDENT ACADEMY** From website: City of Hope's Eugene and Ruth Roberts Summer Student Academy gives curious and hardworking students the opportunity to learn about science by actually doing it. Unlike traditional high school or college classes where the course of study is entirely determined by the instructor, City of Hope's summer program students select their own research project according to their individual areas of interest. Selected participants then spend 10 weeks working full-time as a member of a biomedical research team.

<http://www.cityofhope.org/summer-student-academy>

**Stony Brook University** - From website: Stony Brook University offers an exciting variety of opportunities for high school students, ranging from genuine hands-on research to credit bearing academic classes that can jump start your college career. Stony Brook is one of the most affordable, top-ranked universities in the nation. Enhance your time management and study skills to be better prepared for college. Experience what it's like to attend a major university. If you are a high school student who will complete your junior year in June and your grade point average is 3.85 or higher, you may enroll in selected introductory (100-level) summer courses as a visiting Summer Sessions student.

<https://www.stonybrook.edu/summer/audience/high-school-students>

**HAMPSHIRE COLLEGE SUMMER STUDIES IN MATHEMATICS** From website: Now in its 43rd year, HCSSiM is an intensive six-week encounter with college-level mathematics for talented and highly motivated high school students. It is demanding and expanding. Participants spend a major portion of each day actively engaged in doing mathematics (not simply learning the results of mathematics). <http://www.hcssim.org/>

**HELIOS SCHOLARS AT TGEN** From website: Helios Scholars at TGen is a paid, eight-week summer internship program in biomedical research open to Arizona high school, undergraduate, graduate and medical school students. Interns work full-time on a research project under the mentorship of a TGen scientist to unravel the genetic components of diabetes, neurological disease and cancer. At TGen North in Flagstaff, interns focus their summer research on public health and pathogens such as Valley Fever and antibiotic resistant bacteria. Internships are available in all areas of translational bioscience: laboratory research, computational biology and bioinformatics, mathematics and statistics, and research administration. <https://www.tgen.org/education-outreach/helios-scholars-at-tgen.aspx#.Vb1gk9VHAtx>

**HEALTH SCIENCE HONORS AT TUFTS UNIVERSITY** From website: Learn about the philosophy and practice of medicine. As a Health Science Honors student, you will attend weekly physiology and anatomy lectures and labs, learning about the human body and its functions. You will participate in an exclusive series of behind-the-scenes visits to area hospitals, clinics, and medical laboratories. Through group sessions and the observation of patient treatments, you will discover the importance of thorough and compassionate patient interviewing skills. <https://universitycollege.tufts.edu/summer>

**HIGH SCHOOL HONORS SCIENCE/MATHEMATICS/ENGINEERING PROGRAM @ MICHIGAN STATE UNIVERSITY** From website: The HSHSP provides its participants with a unique opportunity to “live and breathe” research in a university environment. Its goals are not only to educate individuals about the research process but to provide the right kind of social context for such knowledge and expertise to flourish. Our goal is not to produce award winning projects (which often happens, I am pleased to note), but to provide opportunities to enrich one’s knowledge about intellectual work in science and mathematics and to make new and, hopefully, lasting friendships. <http://education.msu.edu/hshsp/>

**HIGH SCHOOL SUMMER SCIENCE RESEARCH PROGRAM @ BAYLOR** From website: The purpose of the Baylor University Summer Science Research Program (BUSSRP) is to give superior students hands-on research experience by working on research projects with Baylor University science professors in many disciplines. The research program occurs during the University's second session of summer school. <https://www.baylor.edu/admissions/index.php?id=872664>

**HILLSDALE SUMMER SCIENCE CAMPS** From website: Rising high school sophomores and juniors are invited to deepen their scientific understanding and appreciation with Hillsdale College faculty in camps focused on molecular biology, chemistry and physics, and mathematics. Students of all academic interests are invited to attend, with at least one year of respective study being suggested as preparation. An optional examination at the conclusion of the camp provides the opportunity to earn one undergraduate college credit hour. Summer Science Camps are made possible by a grant from the Donald L. Murdock Foundation. <http://www.hillsdale.edu/admissions/high-school>

**HONORS SUMMER MATH CAMP AT TEXAS STATE UNIVERSITY** From website: The Mathworks Honors Summer Math Camp (HSMC) is an intensive multi-summer program for high school students. The goal of the program is to develop talented students of all socioeconomic backgrounds through immersive and in-depth experiences in a unique learning environment. Students develop important skills for future degrees and careers in math, science, engineering, and many other fields. Students are

encouraged to apply as early as possible, as enrollment is limited to 60 openings split between first-year and returning students. Applications will not be considered until all parts have been received (application, teacher recommendation, and transcript).

<https://www.txstate.edu/mathworks/camps/Summer-Math-Camps-Information/hsmc.html>

**IDAHO UNIVERSITY: JUNIOR ENGINEERING MATH AND SCIENCE PROGRAM** From website:

Designed for rising seniors who have completed their junior year of high school and are at least 16 years of age, the Idaho Junior Engineering, Math and Science (JEMS) Summer Workshop provides an introduction to engineering through study of real-world problems within their technical and social contexts. <http://www.uidaho.edu/engr/jems>

**IDEAS: MATHEMATICAL AND STATISTICAL INVESTIGATIONS** From website: If you like math, then this camp is for you! We'll explore a variety of topics in mathematics and statistics that you won't see in high school, with an eye toward the many highly rated job opportunities that await students with God-given passion and interests in mathematics. This camp is hosted by Dordt College.

<https://www.dordt.edu/academics/online-courses/summer-courses>

**IMMERSION GEOMETRY AT CHOATE (CT)** From website: This intensive, brisk pace course covers the standard year-long geometry curriculum as students explore the fundamentals of Euclidean geometry and various applications of these concepts in the real world. In order to complete this year-long course in the summer session, students will be in class for the full academic day and may not enroll in additional courses. Enrollment carries a full 5 week boarding or day tuition. This course is appropriate for highly motivated students who have completed Algebra I. <http://www.choate.edu/page.cfm?p=625>

**INTEL SCIENCE SEARCH** From website: The Intel Science Talent Search (Intel STS), a program of Society for Science & the Public (SSP) is the nation's most prestigious science research competition for high school seniors. Since 1942, first in partnership with Westinghouse and since 1998 with Intel, SSP has provided a national stage for the country's best and brightest young scientists to present original research to nationally recognized professional scientists. <https://student.societyforscience.org/intel-sts>

**INTRO TO ROBOTICS AT Illinois Institute of Technology** From website: The objective of this course is to provide an introductory experience to the field of robotics. Included in this experience, will be the engineering design process, a university-level programming language, and open-ended problem solving strategies. Students, working in small hands-on teams, will be presented with several authentic design challenges. To meet these challenges, students will design, build, and program an appropriate LEGO® EV3 robot, with National Instruments LabVIEW software. Teams will document and present their design solutions. Additional topics may include motor control, gear ratios, torque, friction, sensors, timing, program loops, logic gates, decision-making, and timing sequences. The program also lets students experience what it's like to study and play on IIT Main Campus. <https://www.iit.edu/academics/pre-college-programs>

**THE JACKSON LABORATORY** From website: Our Summer Student Program provides high school and college students with an opportunity to conduct independent research under the guidance of staff scientists. More than 2,000 students, including three Nobel Laureates, have participated in the program. <http://education.jax.org/summerstudent/index.html>

**THE JOAQUIN BUSTOZ MATH-SCIENCE HONORS PROGRAM AT ASU** From website: The Joaquin Bustoz Math-Science Honors Program is an intense academic program that provides motivated students an outstanding opportunity to begin university mathematics and science studies before graduating high school. The program is designed to provide a successful university experience for students who are underrepresented in the mathematics and science fields and to enhance their prospects for future

academic success. The Joaquin Bustoz Math-Science Honors Program is intended for mature students with the academic potential to pursue careers that require a mathematics or science-based curriculum. <https://jbmsbp.asu.edu/about>

**THE LUBBOCK PRE-FRESHMAN ENGINEERING PROGRAM AT TEXAS TECH UNIVERSITY** From website: The Lubbock Pre-Freshman Engineering Program at Texas Tech University is a math, science, and engineering summer enrichment program for 6th - 12th graders. We prepare students (including minorities and women) to major in math, science, and engineering in college. Our curriculum includes subjects not usually taught in their schools. We also help them with study skills and interpersonal relationships. The Texas Tech University Department of Mathematics and Statistics has conducted the program in Lubbock for the past twenty nine years. It is presented in seven-week sessions over four years. <http://www.math.ttu.edu/texprep/>

**LSU MATH CIRCLE** From website: Established in 2006, the LSU Math Circle summer enrichment program is a four-week summer program at LSU geared toward rising 9th-12th graders interested in investigating concepts in mathematics that are not usually introduced at the high school level. The program focuses on developing problem-solving abilities, critical thinking, and logical reasoning by exposing the students to interesting problems and ideas in various branches of mathematics, including combinatorics, number theory, probability, topology, and dynamical systems. LSU math graduate students and undergraduates lead campers through the process of thinking logically and creatively to solve these problems. In addition to working on problems, participants also attend lectures by LSU professors and enjoy recreational trips to local scientifically-based industries and research centers. The program runs from 9am to 4:30pm on weekdays. <https://www.math.lsu.edu/dept/mathcircle>

**MATH ACADEMY ON HAWK HILL** From website: Want to go beyond classroom math and explore beautiful excursive topics like GAMES, SYMMETRY, FRACTALS and INFINITY? Get immersed in hands-on experiential learning activities led by renowned mathematics faculty at Saint Joseph's University. <https://www.sju.edu/academics/online-summer-courses>

**MATHLY AT BRYN MAWR** Do you want to explore and create mathematics? Then read on, for that's what MathLy is all about! In MathLy classes, instructors provide the framework and you get to make (and prove!) the conjectures. You will encounter new ideas, improve your problem-solving skills, learn lots and lots of advanced mathematics, and hone your overall thinking skills. You'll meet others like you. (Yes, really. We promise.) Most of all, you will find serious mathematics infused with levity. Many summer mathematics experiences are organized on the principle that simply combining smart people with mathematics will result in learning and fun. This is a true principle---but why not do better? MathLy promises a focused and individually tailored effort that elicits massive learning, enormous fun, and significant personal growth. <http://www.mathily.org/>

**MATHEMATICS SUMMER CAMP AT STONY BROOK UNIVERSITY** From website: The program is designed for students who will be entering their junior or senior year in high school and who have an interest in enriching their mathematics education. During the two-week program students will explore several branches of mathematics, including: Knot Theory, Number Theory, the mathematics of puzzles and games, Cryptography and coding, an introduction to the mathematics of finance, and statistics for the Biological Sciences. In addition students will learn to use MAPLE, an invaluable tool for anyone who is interested in studying Mathematics, Physics, Engineering, or Economics at the college level or beyond. <http://www.stonybrook.edu/cesame/students/MathCamp/mathcamphs.shtml>

**MODERN MATHEMATICS - INTERNATIONAL SUMMER SCHOOL FOR STUDENTS** From website: After Bremen (2011 and 2013) and Lyon (2012 and 2014), the International Summer School for Students offers once again ten days of intense learning and interaction with some of the world's leading

mathematicians. This is a program designed for talented students in their last two years of high school or in their first two years at university, and it is open to international students from all countries. The language of the school is English. The program features plenary talks and mini-courses by leading international mathematicians, and students and instructors live on the park-like campus with ample opportunities for informal interaction. The program is hosted by Jacobs University in the Northern German city of Bremen To apply, please use the electronic application system. Before applying, please read the applicant information carefully. <http://math.jacobs-university.de/summerschool/2015/>

**NANOSCALE MICROSCOPY LAB AT UCLA** From website: Nanoscale Microscopy Lab is a one-week, hands-on, science learning opportunity for high school students on scientific imaging, a topic that is typically only accessible in an advance college level course. Specifically, students will be able to explore three key microscopy techniques for nanoscience research: fluorescence microscopy, scanning probe microscopy, and electron microscopy. This one-week summer course offers an exploratory introduction to this important scientific skill for students as early as 10th grade at the high school level. <http://www.summer.ucla.edu/institutes/NanoscaleMicroscopyLab>

**NIH SUMMER RESEARCH INTERNSHIP PROGRAM** From website: Summer programs at the National Institutes of Health (NIH) provide an opportunity to spend a summer working at the NIH side-by-side with some of the leading scientists in the world, in an environment devoted exclusively to biomedical research. The NIH consists of the 240-bed Mark O. Hatfield Clinical Research Center and more than 1200 laboratories/research projects located on the main campus in Bethesda, MD and the surrounding area as well as in Baltimore and Frederick, MD; Research Triangle Park, NC; Hamilton, MT; Framingham, MA; and Detroit, MI. NOTE: the number of positions in Hamilton, Framingham, and Detroit is limited. <https://www.training.nih.gov/programs/sip>

**NEW YORK MATH CIRCLE SUMMER PROGRAM** From website: The Summer High School Math Circle is an academically intensive weekday program for students entering grades 9–12 in the fall that runs for three weeks, five hours a day. A typical day consists of a class in the morning, followed by lunch, and a problem solving session in the afternoon. Instructors and teaching assistants are very friendly and helpful, and the atmosphere is open and collaborative. NYU Courant Institute hosts this summer program. <https://www.nymathcircle.org/summer>

**PROMYS AT BOSTON UNIVERSITY** From website: PROMYS is a six-week summer program at Boston University designed to encourage strongly motivated high school students to explore in depth the creative world of mathematics in a supportive community of peers, counselors, research mathematicians, and visiting scientists. <http://www.promys.org/>

**QUANTUM CRYPTOGRAPHY SCHOOL FOR YOUNG STUDENTS** From website: The Quantum Cryptography School for Young Students (QCSYS) is a unique, eight-day enrichment program for students hosted by the Institute for Quantum Computing (IQC) at the University of Waterloo. The school offers an interesting blend of lectures, hands-on experiments and group work focused on quantum cryptography — a cutting-edge field that utilizes the fascinating laws of quantum mechanics to develop unbreakable encryption that protects communication. Students get a first-hand look into the physics and mathematics of quantum mechanics, cryptography and how they merge into one of the most exciting topics in contemporary science — quantum cryptography. Participants meet and collaborate with some of the most renowned researchers the field has to offer. Daily social activities encourage relationship building between participants. <https://uwaterloo.ca/institute-for-quantum-computing/programs/quantum-cryptography-school-young-students>

**RESEARCH IN POLYMERS AT RENSSELAER POLYTECHNIC INSTITUTE** From website: The goal of this research week is to provide the high school students with the opportunities to (1) characterize and

identify plastic materials using cutting-edge thermal analysis instrument in polymer center at RPI, (2) promote their understanding on the thermal properties of polymers, such as glass transition and melting temperatures, which will be the main consideration to dictate the usage of polymers in modern life and (3) ultimately enhance their awareness of plastic recycling issues. Students will contribute to the research group website of Professor Chang Y. Ryu (<http://homepages.rpi.edu/~ryuc/research.html>).  
<https://summer.rpi.edu/>

### **RESEARCH INTERNSHIP PROGRAM IN SCIENCE AND ENGINEERING @ BOSTON UNIVERSITY**

From website: Under the mentorship of our distinguished faculty, post-doctoral fellows, and graduate students, high school summer research internship (RISE) students work on a designated research project designed by their professor for forty hours each week of the program. You will perform research in your chosen discipline while acquiring invaluable technical and analytical skills - as well as insight into the scientific process. <https://www.bu.edu/summer/high-school-programs/>

### **RESEARCH IN THE BIOLOGICAL SCIENCES AT THE UNIVERSITY OF CHICAGO** From website:

Furthering the diagnosis and treatment of cancer, discovering how to preserve blood, laying the mathematical foundations for the theory of genetic evolution—the University of Chicago Biological Sciences Division is a leader in these and many other areas of research. This summer, learn the techniques used in this sort of cutting-edge biological research in lab facilities of a quality not found in any high school. This fourweek intensive training program is designed to expose students to a broad range of molecular, microbiological, and cellular biological techniques currently used in research laboratories. <https://summer.uchicago.edu/>

**RESEARCH SCIENCE INSTITUTE AT MIT** From website: Each summer, 80 of the world's most accomplished high school students gather at the Massachusetts Institute of Technology (MIT) for the Research Science Institute (RSI). RSI is the first cost-free to students, summer science & engineering program to combine on-campus course work in scientific theory with off-campus work in science and technology research. Participants experience the entire research cycle from start to finish. They read the most current literature in their field, draft and execute a detailed research plan, and deliver conference-style oral and written reports on their findings. <http://www.cee.org/research-science-institute>

**ROSS PROGRAM AT OHIO STATE UNIVERSITY** The Ross Program at the Ohio State University is an intensive summer experience designed to encourage motivated pre-college students to explore mathematics. During those six weeks, students are immersed in a world of mathematical discovery. Ambitious pre-college students with interests in mathematics and science are invited to apply. First-year students range in age from 15 to 18 years old. (In rare cases, younger or older students are accepted.) Admission decisions are based on several criteria, including: the applicant's work on some challenging math problems; essays concerning the applicant's interests and goals; teacher recommendations; and school transcripts. <http://u.osu.edu/rossmath/>

**RUTGERS UNIVERSITY - DISCRETE MATH PROGRAM** From website: The Rutgers Young Scholars Program in Discrete Mathematics is a summer program for mathematically talented high school students. It provides a mathematically rich environment to high school students interested in mathematics, and is designed to encourage them to consider careers in the mathematical sciences. <http://dimacs.rutgers.edu/ysp/>

**SANTA CLARA UNIVERSITY SUMMER ENGINEERING SEMINAR (SES)** From website: This special summer experience is for current high school sophomores and juniors who are curious about engineering. The program is designed to acquaint participants with the engineering profession, the academic expectations of college, and the nature of life at a university. The SES program is designed to motivate young people to pursue science and engineering majors in college so they can ultimately

participate in the scientific and technical work force. It provides participants with a chance to explore the many possibilities of engineering as a career while living in University residence halls staffed by program counselors. Participants eat their meals in University dining facilities, attend special workshops and complete their own engineering projects. Participants experience the outside-of-class aspects of Santa Clara University through afternoon and evening recreational activities.

<http://www.scu.edu/engineering/about/ses.cfm>

**THE SCIENCE AND ENGINEERING APPRENTICESHIP PROGRAM (SEAP) See Military SEMINAR FOR TOP ENGINEERING PROSPECTS (STEP)** From website: This seminar provides a dynamic, one week opportunity to explore the many disciplines within engineering and the exciting future career opportunities that they bring. During your week in the STEP program, you will be placed on a team of four students with whom you will learn fundamental engineering design skills that you will put to use in a multifaceted engineering design competition. You will attend various demonstrations, engineering lectures, and partake in tours of both Purdue and local engineering companies, all of which will give you the feel of being an engineering student. With this experience you will be able to get a glimpse into what campus life is all about. The program welcomes all rising High School Seniors who are considering any engineering discipline as their college major. <https://engineering.purdue.edu/Engr/InfoFor/Honors/STEP>

**SIEMENS WESTINGHOUSE SCIENCE COMPETITION** From website: The Siemens Competition in Math, Science & Technology recognizes remarkable talent early on, fostering individual growth for high school students who are willing to challenge themselves through science research. Through this competition, students have an opportunity to achieve national recognition for science research projects that they complete in high school. It is administered by Discovery Education and funded by the Siemens Foundation. <http://www.siemens-foundation.org/en/competition.htm>

**S.O.A.R.ING WITH MATHEMATICS** From website: Are you a high school student? Do you enjoy mathematics, science, statistics and/or engineering? If so, then you should consider going to SOAR (Students Optimizing, Analyzing, Researching) this summer at Austin Peay State University in Tennessee. Students with academic talent deserve the opportunity to develop their skills to the highest possible level! <https://www.apsu.edu/mathematics/soar.php>

**STANFORD UNIVERSITY STEM OUTREACH** From website: Programs for High School Students from the Office of STEM Outreach. <https://oso.stanford.edu/programs/high-school-students>

**MIDWESTERN UNIVERSITY HEALTH CAREERS INSTITUTE** from website: The 2022 Health Careers Institute for high school students is a free educational opportunity for high school juniors and seniors to explore a variety of health professions. Forty-eight high school juniors and seniors will be selected through an application process. Applications can be downloaded below and are due May 1. <https://www.midwestern.edu/about/mwu-now/events/health-careers-institute-for-high-school-students-x64511>

**STEM FOR SCHOLARS AT THE UNIVERSITY OF SOUTH FLORIDA** From website: The USF STEM for Scholars Program is open to ambitious high school students entering grades 9 through 12. Through a diversity of courses the four-week program, seeks to expand student academic horizons, challenge them to become critical thinkers, prepare them for exciting careers in STEM fields, and inspire them to be creative problem-solvers. Through hands on experiences the participants will learn the art of mathematical and scientific research and discovery. Importantly, they will learn to appreciate the interdependence of the various STEM fields and the role mathematics plays in all these disciplines, including 3D visualization, computer science, and robotics. <http://www.usf.edu/innovative-education/programs/pre-college/programs/stem-for-scholars.aspx>

**STONES AND BONES: A PRACTICUM IN PALEONTOLOGY** From website: Join the Field Museum's Distinguished Service Curator Lance Grande for a four-week intensive practicum in paleontology. Go into the field and behind the scenes at the Field Museum to learn how fossils are collected, analyzed, and conserved, as you work alongside museum scientists in the lab and in the field. In Chicago, Grande and other Field Museum scientists will take you into the labs and galleries where they work and study as they introduce you to important concepts in geology, paleontological method, stratigraphy, and earth history. You will also learn about basic techniques for the study of evolutionary biology including comparative skeletal anatomy of fishes and other freshwater animals. You will also examine methodological concepts such as fossil preparation, illustration, and description. In this way, you will acquire the fundamental scientific background needed to discover and understand the significance of fossils in the field. <https://summer.uchicago.edu/programs/stones-and-bones>

**STUDENT SCIENCE TRAINING PROGRAM @ UNIVERSITY OF FLORIDA** From website: The UF SSTP is a seven week residential research program for selected rising juniors and seniors who are considering medicine, math, computer, science, or engineering careers. The program emphasis is research participation with a UF faculty research scientist and his or her research team. <https://www.cpet.ufl.edu/students/uf-cpet-summer-programs/student-science-training-program/>

**U OF A SUMMER INSTITUTE ON MEDICAL IGNORANCE** From website: At the heart of Q-Cubed is the College of Medicine's Curriculum on Medical Ignorance (CMI). The goal of this curriculum is to gain understanding of the shifting domains of ignorance, uncertainty, and the unknown as it relates to medicine and medical research. Developed in the mid-1980s, the Summer Institute on Medical Ignorance (SIMI) utilizes this form of thinking and was developed to enrich student education and general health literacy beyond classroom lectures. High school students, undergraduate students, and medical students all participate in the summer program. They have the opportunity to work closely with distinguished scientists and physicians, who teach them how to translate questioning techniques into their lives and classrooms. <http://ignorance.medicine.arizona.edu/about-us/home>

**SUMMER INTRODUCTION TO ENGINEERING @ NOTRE DAME** From website: "Introduction to Engineering Program" is interactive. It's guided in part by your interests and questions. We'll start with informal classroom lectures given by Notre Dame faculty and men and women currently employed as professional engineers. <http://www3.nd.edu/~iep/>

**THE SUMMER SCIENCE PROGRAM** From website: The Summer Science Program has been inspiring gifted young scientists for over 50 years, by accelerating their intellectual and social development. The Program takes place on two campuses: New Mexico Institute of Technology in Socorro, and University of Colorado in Boulder. At each campus, 36 rising high school seniors complete a challenging research project in celestial mechanics. Many alumni have gone on to distinguish themselves at selective universities, and to positions of leadership in their chosen careers. <http://www.summerscience.org/home/index.php>

**TULANE SCIENCE SCHOLARS PROGRAM** From website: The Tulane Science Scholars Program (TSSP) is a selective program for high school students who have exceptional talent in the sciences and mathematics. For-credit summer and non-credit Saturday academic year classes are offered by faculty members and graduate students who are passionate about sharing their subject area. <http://tulane.edu/sse/tssp/>

**ULTIMATE TECHNOLOGY BOOT CAMP AT ARIZONA STATE UNIVERSITY** From website: Do you know a high school student who has what it takes to spend 10 days hacking at technology at ASU poly campus? Learn from award winning faculty and instructors, how to create mobile apps, develop cutting

edge games, design and build robots, and more. Work together in teams to learn design, development and content integration for software like games and apps. The camp is two weeks long and completely residential. <https://summer.asu.edu/summer-youth-programs>

### **UNIVERSITY OF UTAH SUMMER MATHEMATICS PROGRAM FOR HIGH SCHOOL STUDENTS**

From website: The Summer Mathematics Program for High School Students at the University of Utah provides outstanding students an opportunity to develop their talents to the fullest. By presenting intriguing puzzles, challenging problems and powerful ideas, the program stimulates curiosity, develops the intellect, and lays a strong foundation for future work in mathematics, the sciences, or science related careers. Participants will receive three university credits in mathematics (graded credit/no credit). <https://www.math.utah.edu/high-school-program/summerhsp.php>

**UNIVERSITY OF VERMONT: UVM/GIV ENGINEERING SUMMER INSTITUTE** From website: The technologies of tomorrow start at this Institute where approximately 100 high school students from Vermont, the US, and around the world explore engineering solutions to societal problems. At GIV Engineering, you'll get up close and personal with cutting-edge sustainable engineering challenges, working with peers and professional experts to design and build solutions that work <https://learn.uvm.edu/pre-college/>

**VANDERBILT CENTER FOR SCIENCE RESEARCH** From website: The Research Experience for High School Students (formerly Research Internship Program) is an intense, 6-week scientific research internship at Vanderbilt University, centering on full immersion in a Vanderbilt University or Vanderbilt University Medical Center research lab. Students engage in an independent research project under the mentorship of a research faculty member at Vanderbilt. <http://www.vanderbilt.edu/cso/rehss/>

**THE WILLIAMS COLLEGE MATH CAMP** From website: The Williams College Math Camp (WCMC) is a free, ten-day residential math camp for about 20 mathematically gifted high school students who have completed or are currently enrolled in Algebra 2 or its equivalent. Students will be exposed to several different areas of mathematics through colloquia and other activities, but the primary focus of the camp will be Number Theory & The Art of Mathematical Thinking. Students will learn to explore the theory of numbers by asking thoughtful questions, working out examples, looking for patterns, making conjectures, and finally, proving their results. <http://sites.williams.edu/mathcamp/>

**YOUNG SCHOLARS PROGRAM AT THE UNIVERSITY OF CHICAGO** From website: The Young Scholars Program offers mathematically talented seventh through twelfth graders an opportunity to explore mathematics that are not generally taught in schools. Students are encouraged to engage in active problem solving and are challenged to broaden their understanding of mathematics. <http://math.uchicago.edu/ysp/>

## MILITARY ACADEMY

**INTRODUCTION MISSION AT THE UNITED STATES COAST GUARD ACADEMY** From website: It is important that you make an informed decision about applying to and attending the Coast Guard Academy. Our Academy Introduction Mission (AIM) is a one-week summer program that gives you the chance to see if the Academy is right for you, and if you have what it takes to succeed. If you are selected, you will experience the rigor, discipline, and rewards of the Academy, just like a cadet, for a week in July following your junior year in high school. <https://www.uscga.edu/aim/>

**WEST POINT ACADEMY SUMMER LEADERS SEMINAR** From website: The Summer Leaders Experience (SLE) application will open on January 5th, 2015. SLE is highly competitive - there are normally 6,000 applicants and 1,000 attendees. SLE gives high school juniors a week to experience life as a cadet to inform their college selection decision. SLE is a fast-paced program of academic classes, military training, physical fitness training and intramural athletics conducted during the month of June each year. You must have standardized test scores to be considered for SLE.

<https://www.westpoint.edu/admissions/summer-program>

**SEAP: SCIENCE AND ENGINEERING APPRENTICESHIP PROGRAM** SEAP provides an opportunity for students to participate in research at a Department of Navy (DoN) laboratory during the summer. The goals of SEAP are to encourage participating students to pursue science and engineering careers, to further their education via mentoring by laboratory personnel and their participation in research, and to make them aware of DoN research and technology efforts, which can lead to employment within the DoN. SEAP provided competitive research internships to over 265 high school students this year. Participating students spend eight weeks during the summer doing research at 25 DoN laboratories.

<https://navalsteminterns.us/seap/>

**SUMMER SEMINAR AT THE UNITED STATES AIR FORCE ACADEMY** From website: Summer Seminar at the United States Air Force Academy offers a unique opportunity to get the Academy experience first-hand. Specially designed for high school juniors heading into their senior year, Summer Seminar allows participants to see a realistic slice of cadet life.

<http://www.academyadmissions.com/admissions/outreach-programs/summer-seminar/>

## MINORITY FOCUSED PROGRAMS AND OPPORTUNITIES

**AFRICAN AMERICAN SCHOLARS AT NOTRE DAME** From website: African American Scholars at Notre Dame is a week-long seminar that offers outstanding young Catholic African American high school students the opportunity to explore the rich historical, political and spiritual legacy of African American leadership and to enhance their own leadership abilities during one week on the Notre Dame campus. Based on the legacies of African Americans in civil rights, politics, and religion, the seminar seeks to educate and empower participants to produce viable strategies for leadership, and visions of change in their future. Academic experiences are complemented by time for spiritual reflection, personal development, and recreation. All program expenses including round trip transportation to the campus are covered by the University of Notre Dame. <http://precollege.nd.edu/>

**CALTECH YESS PROGRAM** From website: The Young Engineering and Science Scholars (YESS) program at Caltech is a three-week summer residential program for exceptional underrepresented high school students and others who feel they would benefit from the program. The YESS program is designed for students who have a passion for science and engineering and wish to engage in collaborative learning. There is no cost for students to attend the YESS program. Caltech covers all program-related expenses including room and board and educational materials. Students are expected to provide their own transportation to and from Caltech. Financial assistance is available for transportation expenses for students that require it. <https://www.caltech.edu/about/news/caltech-says-yess-future-scientists-1796>

**CARLETON COLLEGE LIBERAL ARTS EXPERIENCE** From website: The Carleton Liberal Arts Experience (CLAE) will select 50 high school students who have just completed their sophomore year and bring them to Carleton, all expenses paid, for a one-week summer program. The CLAE program introduces the strengths of a liberal arts education through an array of courses in science, art, social sciences, and

technology. Students of African American descent or students who have an interest in African American culture are encouraged to apply. Applicants must be college-bound high school students who are current sophomores. <http://apps.carleton.edu/summer/clae/>

**CATALYST ACADEMY AT CORNELL** From website: CATALYST Academy is a one-week summer residential program for rising high school sophomores, juniors, and seniors. The mission of the CATALYST Academy is to advance diversity in engineering and its related disciplines. Therefore, applications from students from backgrounds (African American, Latino/a, or Native American) critically underrepresented in the fields of science, technology, engineering, and math are especially encouraged. <https://www.engineering.cornell.edu/engdiversity/prospective-students-outreach/high-school-summer-programs>

**ENTRADA SCHOLARS PROGRAM AT CALVIN COLLEGE** From website: The Entrada Scholars Program at Calvin College offers racial ethnic minority high school students a gateway to the future: the opportunity to experience college learning and living while earning college credit in English, Biology, History, or Psychology. <http://www.calvin.edu/offices-services/pre-college-programs/programs/entrada/>

**THE HOOP OF LEARNING MEDICAL PROFESSIONS INTERNSHIP PROGRAM** From website: Designed as a pre-college program, the Hoop of Learning promotes career development among Native students. Hoop recruits Native American high school junior and seniors. Students will take college credit health classes at a community college in the morning and participate in an internship at the Phoenix Indian Medical Center in the afternoon. This includes participating in a paid internship program at the Phoenix Indian Medical Center. Students will be involved in hospital activities and the actual care of patients in three areas: dental, surgery and mental health. <https://www.ihs.gov/careeropps/studentopportunities/>

**THE LATINO COMMUNITY LEADERSHIP SEMINAR** From website: The Latino Community Leadership Seminar encourages students to explore the role of Latinos in US society through a series of presentations, discussions, and experiences. Students will examine how their values and experiences interact with political, economic, and social realities to produce new avenues for effective Latino leadership. The seminar will develop a strong commitment to community service derived from the values of Latino culture and of the Catholic social tradition. All program expenses including round trip transportation to the campus are covered by the University of Notre Dame. <http://precollege.nd.edu/>

**LEAD PROGRAM** From website: Leadership, Education, and Development (LEAD) is a four-week program introducing youth of diverse and underserved backgrounds to key areas of business. First established at Wharton in 1980 and reflecting a long-standing commitment to developing business leaders through business education, the LEAD program has developed a global presence with sister programs hosted at universities around the world. <https://www.wharton.upenn.edu/pre-college-programs/>

**MINORITY INTRODUCTION TO ENGINEERING AND SCIENCE PROGRAM AT MIT (MITES)** From website: Minority Introduction to Engineering and Science (MITES) is a rigorous six-week residential academic enrichment program for promising high school seniors – many of whom come from underrepresented or underserved communities – who have a strong academic record and are interested in studying and exploring careers in science and engineering. This national program stresses the value and reward of pursuing advanced technical degrees and careers while developing the skills necessary to achieve success in science and engineering. In 2014, MITES served 72 students hailing from 38 states, Washington, D.C. and Puerto Rico. <http://oeop.mit.edu/programs/mites/program-details>

**(MS)2 : PHILIPS ACADEMY ANDOVER** From website: The (MS)2 program was founded in 1977 to address the compelling need to cultivate the mathematical and scientific abilities of economically disadvantaged African American, Latino, and Native American high school students from targeted cities and communities across the United States. In a residential setting on the historic Phillips Academy campus, the three-summer program challenges students intellectually and exposes them to peers and educators with diverse backgrounds, life experiences, and aspirations. This competitive and rigorous program is free of charge for all students selected. <https://www.andover.edu/summersessionoutreach/mathscience/pages/default.aspx>

**NBA CRUMP LAW CAMP** From website: The National Bar Association Crump Law Camp was established to provide students entering the 9th through 11th grades (ages 14 to 17) with an introduction to the American judicial system. Three other national minority bars—the Hispanic National Bar Association, the Native American Bar Association and the National Asian Pacific Bar Association have generously given their support to the camp as well. By providing incentive, motivation and direction to aspiring law students of color, the National Bar Association Crump Law Camp helps prepare the nation’s future lawyers, judges and protectors of the judicial system. For questions regarding the camp, please email [valeriedsu@yahoo.com](mailto:valeriedsu@yahoo.com). <https://www.nationalbar.org/youth>

**LOTT LEADERSHIP INSTITUTE @ THE UNIVERSITY OF MISSISSIPPI** From website: The Summer Leadership Institute for High School Students is a partnership between the University of Mississippi’s Lott Leadership Institute and the Division of Outreach’s Summer College for High School Students. The goals of the program are to develop leadership skills in young citizens and prepare them for college. In order to achieve these goals, the Summer Leadership Institute brings together student leaders from across the Southeast to earn college credit on the UM campus and to begin the study of leadership. Included in the program are opportunities to mingle with college administrators, student leaders, and community leaders while participating in current event debates, discussions, and decision-making activities. The program culminates with a one-week trip to Washington, D.C., during which the participants see the federal government in action, hear from national leaders, and tour the nation’s Capital. The ideal outcome is for students who complete the program to return to their high schools and put their new skills to work for the betterment of their own schools and communities. <http://lottinst.olemiss.edu/high-school-students/for-high-school-students/>

**NEUBAUER SUMMER SCHOLARS** From website: Students selected will receive a full scholarship to participate in one of two exciting Summer Session courses: Collegiate Writing: The Art of Dreams and Contagion: Infectious Agents and Emerging Diseases. Even if you don't plan to study English or Biology in college, being a Neubauer Summer Scholar is a great way to get an early look at college-level classes and get a feel for life on campus--and to have a ton of fun in the process. You'll spend the morning gaining hands-on experience from teachers who are experts in their fields and in the evening exploring everything summertime Chicago has to offer with your classmates. Thanks to the vision and the generosity of the Neubauer family, top students engaged in Hispanic and Latino communities can now participate in select University of Chicago Summer Session courses free of charge.  
<http://summer.uchicago.edu/high-school/neubauer-summer-scholars>

## SPEECH AND DEBATE

**SOCIAL JUSTICE DARTMOUTH DEBATE INSTITUTE** From website: The DDI is a program for experienced policy debaters with at least a full year of high school policy debate experience. Now in its 32nd year, the DDI has produced national champions at the high school and collegiate level. Most attendees are entering their junior or senior year; it may be appropriate for sophomores with a strong record. <http://ddidebate.org/aboutddiandddix/>

**EDUCATION UNLIMITED - PUBLIC SPEAKING CAMP** From website: Education Unlimited is the national leader in providing noncompetitive public speaking summer programs for kids and teens. Education Unlimited was founded in 1993 by a group of speech and debate coaches who developed our innovative curriculum. Today, our curriculum directors and on-site faculty and staff include coaches at some of the nation's premiere high schools and universities and former speech, debate, and mock trial competitors who reached national levels of success.  
<https://www.educationunlimited.com/camp/category/5/public-speaking-institute.html>

**EDUCATION UNLIMITED - THE AMERICAN LEGAL EXPERIENCE** American Legal Experience offers high school students a unique opportunity to learn public speaking skills through a focus on the American government and judicial system. Two programs are offered: Mock Trial, an intensive "courtroom" program offered at Stanford University, and Leadership and the Law, a seminar in government, law and leadership held in Washington, D.C.  
<https://www.educationunlimited.com/camp/category/63/.html>

**JUNIOR STATESMEN SUMMER SCHOOL AND SYMPOSIUM ON POLITICS AND GOVERNMENT** From website: Government "by the people, for the people" requires the informed and engaged participation of its citizens. More than just learning about the issues and forming opinions, people in a healthy democracy get involved and take action. JSA does more than educate students and train them to speak out. JSA challenges students to "be the people" who are actively engaged in making their communities, states and the world a better place. In addition to the Summer School, JSA sponsors Summer Institutes on politics and current issues as well as school year conventions and conferences. The largest student-run organization in the nation, JSA is a non-profit, non-partisan organization providing a one-of-a-kind forum for politics and debate. Founded over 80 years ago by high school students, the JSA program today has had over 500,000 participants from across the country and the

world, and is the world's premiere organization for educating young people on the merits, opportunities, challenges and responsibilities of leading within a democratic society.

<https://www.jsa.org/programs/schools-2/>

**TAKE ACTION! ACADEMIES** From website: The Take Action Leadership Academy is a week-long, social justice-themed summer camp for kids age 9-21, designed to give young people the leadership skills, confidence and peer support to improve not only themselves, but their world. Participants explore pressing global issues, volunteer in the local community and take their place within a worldwide social movement of globally-conscious young people. <https://www.metowe.com/leadership-programs/>

**VICTORY BRIEFS INSTITUTE** From website: VBI offers two- and three-week sessions on the campuses of the University of California-Los Angeles and Swarthmore College. The curriculum includes lectures, smaller seminars, demonstration and practice rounds, informal discussions and one-on-one sessions with coaches. The institute places students in lab groups of 12 to 15 based upon area of focus and experience level. A novice lab serves boys and girls with no previous Lincoln-Douglas experience. High school debate coaches and former invitational and national tournament champions serve as VBI instructors. <https://www.vbidebate.com/>

**WAKE FOREST SUMMER DEBATE WORKSHOPS** From website: The Earliest Bird is a workshop for a new era in high school debate. The idea is simple: debaters learn best when they debate challenging opponents in front of quality judges. The Earliest Bird brings those competitors and critics together in a one week intensive camp. Each day of the workshop, debaters will have three full debates and give three rebuttal redo's in front of some of the premier judges in high school and college debate. The evidence for the debates will be produced by the national champion Wake Forest University Debate Team and distributed to the Earliest Bird debaters weeks in advance so the workshop can focus on in-round performance. <https://www.rksatwfu.org/>

**WASHINGTON WORKSHOPS CONGRESSIONAL INTERNSHIPS** From website: Since 1967, the Workshops Foundation has provided experience-based educational travel programs to highly motivated, academically prepared, and inquisitive groups and individuals from across the United States and the international community. Our programs offer a highly comprehensive understanding of leadership, civic education, domestic and global politics, history and culture. While remaining committed to our strong roots in Washington, DC, the Workshops Foundation continues to broaden its program offerings and unique experiences to other national and international destinations. Programs available include simulations of the U.S. Congress, The U.S. Presidency, U.S. Supreme Court (Simulations of the three branches of government – Executive, Legislative, Judicial), Cultural and Human Geography, internships for career exploration, academically themed seminars, professional development, and person-to-person exchange. Private, nonprofit, and nonpartisan, the Workshops Foundation is based in Washington, D.C., a unique location that allows for our close ties with the officials and organizations capable of making educational experiences in the Capital, around the nation and across the globe a unique, hands-on and empowering. <https://www.workshops.org/about/our-story>

**GLOBAL ISSUES: TOWARDS A JUST PEACE AT NOTRE DAME UNIVERSITY** From website: Global Issues: Towards a Just Peace Seminar is based on the premise that the problems facing the world in the 21st century—from climate change, resource wars, and ethnic and religious conflict to poverty, discrimination and human rights — cannot be addressed by any one nation, religion, academic discipline or social movement, but by collaboration across boundaries of all kinds. How are these problems interwoven, and how can we craft workable solutions to them? How can actors (individuals, movements and institutions) from religious and secular communities, developed and developing worlds, science and the arts, politics and economics work together to address these complexities with compassion and

creativity? And what is Notre Dame's role in such collaboration? With the help of Notre Dame faculty from several disciplines, we will explore these knotty questions together and sketch some ways forward.

<https://precollege.nd.edu/>

**GEORGETOWN UNIVERSITY INTERNATIONAL RELATIONS PROGRAM** From website: This eight-day program combines classroom lectures from Georgetown faculty and guest speakers with visits to organizations involved in foreign policy, small-group discussions of newsworthy topics and an international crisis simulation. Areas of study include diplomatic, economic and military instruments of foreign policy; international organizations; international law; competing ideologies in international order; selfdetermination; the environment; terrorism; civil war; weapons of mass destruction; problems in the developing world; and the future of the international system.

<http://scs.georgetown.edu/departments/21/summer-programs-for-high-school-students/>

**MLK YOUNG LEADERS AT CALVIN COLLEGE** From website: Participants will spend 3 days living on Calvin's campus with an approved Calvin student host. In addition, they will participate in a featured workshops, seminars, a community Service-Learning project, dorm life, campus fun, an inspirational movie, discussions, and our annual Martin Luther King March on campus. And, at the completion of the program, parents are invited to join our staff in celebrating our young leaders in our celebration reception. If a student is interested in bettering their community, themselves, and developing their leadership skills, then the MLK Weekend program is for them. 9th – 12th graders of all ethnic backgrounds are welcome to apply to this program. <http://www.calvin.edu/offices-services/pre-college-programs/programs/mlk/>

## PRE-COLLEGE PROGRAMS

**STANFORD SUMMER INSTITUTE:** From the website: The Summer Institutes offer a three-week residential program for academically talented and motivated high school students. Participants live in supervised Stanford housing and are taught by instructors who are experts in their fields and passionate about teaching. Students engage in intensive study in a single course and are introduced to topics not typically presented at the high school level. The Summer Institutes provide a taste of college life in the beautiful surroundings of the Stanford campus. <https://summerinstitutes.stanford.edu/>

**BOSTON COLLEGE EXPERIENCE** From website: Boston College Experience, a residential college program, is designed to immerse qualified rising high school seniors in BC's richly diverse community during the summer. Throughout BCE's six-week program, students will earn credits in college-level courses from a variety of disciplines, experience life as a BC student, and engage in activities in and around Boston and on BC's campus. These elements comprise a transformative program with a focus on service learning. In other words, you'll learn to change the world through an experience that changes yours. <https://www.bc.edu/bc-web/sites/bc-experience.html>

**COLORADO COLLEGE SUMMER SESSION** From website: On the block plan, you will take one class at a time - immersing yourself and focusing on one subject with a singular intensity. A block class powers through a full semester's worth of content in 3.5 weeks. Classes generally meet from 9am to noon on weekdays (although class times vary by subject and instructor). Plan on spending a good amount of afternoon and evening time reading, writing, preparing for presentations, and collaborating on projects. Science courses often include afternoon labs or field study in addition to morning sessions.

<https://www.coloradocollege.edu/precollege/>

**UNIVERSITY OF SOUTHERN CALIFORNIA** From Website: USC is proud to extend our tradition of academic excellence to outstanding high school students around the world, who are eager to dive deeper into their interests at a collegiate level. Join fellow future leaders on-campus or online in engaging coursework taught by USC faculty. <https://precollege.usc.edu/>

**DUKE UNIVERSITY SUMMER ACADEMY FOR HIGH SCHOOL STUDENTS** From website: Summer Academy for High School Students, a three-week, non-credit-bearing program offered by Duke University, attracts students who represent the next generation of leaders from around the world. Immerse yourself in an international experience by enrolling in this elite program designed to provide the academic and residential environment to gain a global perspective on multiple areas of interest for young leaders. <http://summersession.duke.edu/high-school-students/duke-summer-academy>

**DUKE SUMMER COLLEGE FOR HIGH SCHOOL STUDENTS** From website: Get ahead this summer and earn college credit with academically-motivated students from around the world in Duke University's Summer College for High School Students. If you are a current 10th or 11th grade student, you are eligible to apply as early as December 2, 2014. This program, a four-week, credit bearing program offered by Duke University, attracts students who represent the next generation of leaders from around the world. Immerse yourself in an international college experience by enrolling in this elite program designed to provide the academic and residential environment conducive to collegiate success. <https://learnmore.duke.edu/precollege/all-programs>

**THE EXCEL PROGRAM AMHERST COLLEGE** From website: Located in Massachusetts' Pioneer Valley, Amherst College has been committed to the pursuit of academic excellence since its founding in 1821. As a Putney Pre-College student, you spend four hours a day pursuing two areas of interest in small, active seminars. Seminars encourage collaboration and hands-on learning, allowing you to get out of the classroom often for field trips, experiments, performances, college tours, field assignments, and to meet with local experts. Without the pressure of grades or tests, you can enjoy delving into your courses without the stress that comes along with a traditional classroom. Seminars are limited to ten students or fewer. Pre-College Amherst participants hail from all around the United States as well as international destinations. In 2014, Pre-College Amherst welcomed students from 20 different countries. <https://goputney.com/programs/amherstcollege/>

**THE GEORGE WASHINGTON UNIVERSITY PRE-COLLEGE PROGRAMS** From website: GW Pre-College provides students with an extraordinary opportunity for an enriching summer experience at a top research institution. Our ten colleges and schools, nearly 100 research centers and institutes, world-class library system, and state-of-the-art technology provide an unparalleled breadth and depth of learning opportunities. High school students benefit tremendously from GW's expertise in global development, international relations, public policy and administration, politics, diplomacy, history, biomedical engineering, museum studies, and the arts. Our top-tier faculty guide, inspire, and empower students through immersive programs that connect academic experience with real-world practice. <http://precollege.gwu.edu/about>

**GEORGETOWN SUMMER COLLEGE** From website: The Summer College at Georgetown University offers high school students a one of a kind experience. With access to more than 80 courses that span across multiple disciplines, you will have the opportunity to live on campus and attend class with Georgetown undergraduate students in one of two five- week sessions. Or take courses in both sessions and earn up to 6 college credits before you graduate high school. This is your chance to experience what life at Georgetown feels like both inside and outside of the classroom. <https://summer.georgetown.edu/>

**HIGH SCHOOL SUMMER SEMINAR PROGRAM AT UNIVERSITY OF CALIFORNIA, IRVINE** From website: Through the UCI Summer Session High School Summer Scholar Program, you will preview and prepare for the challenges and rewards of undergraduate life. You will learn from UCI's distinguished faculty in your academic UCI credit course and study alongside other university students. During the special Program Seminars, you will meet additional faculty, researchers, and industry experts from across the campus through networking activities and interactive presentations and enjoy fun social activities where you will meet other Summer Scholars and make new friends.  
<http://summer.uci.edu/programs/highschool/>

**IN FOCUS SEMINARS AT NORTHWESTERN UNIVERSITY** From website: IN FOCUS Seminars are designed to expose students to top Northwestern faculty highlighting themes relevant today. They do not have the time commitment or cost of a college credit course. These two week noncredit seminars are structured like a college seminar course. Faculty will lead the seminar through discussion, readings and study, enabling a rich learning experience. Only College Prep students are able to enroll in the seminars, which will appear on your official Northwestern University transcript upon successful completion. If you wish to request credit at your high school for a seminar, discuss this with your counselor ahead of time since the acceptance of credit depends on your school's policy.  
<http://sps.northwestern.edu/program-areas/summer/high-school-programs/college-preparationprogram/academics.php>

**INSIGHT: EXPERIENCE LEARNING IN-DEPTH AND HANDS-ON AT UNIVERSITY OF CHICAGO** From website: Experience a discipline in-depth and hands-on in these intensive three-week courses, as you join experts in their fields in doing what they do. Every course takes advantage of the unique educational opportunities offered by the University and the city of Chicago, taking the material taught in undergraduate level courses and adding an experiential piece not available in traditionally designed courses. All courses are taught at the undergraduate level. <https://summer.uchicago.edu/pre-college-students>

**THE JOHNS HOPKINS SUMMER UNIVERSITY PROGRAM** From website: The Johns Hopkins Summer University Program offers qualified high school students the opportunity to take freshman- and sophomore-level credit classes in arts and sciences and engineering. The program lasts 5 weeks and residential students must be full-time students and enroll in two classes, for up to seven credits. Commuter students may register part-time (one class) or take the full two-course load. With over 100 courses being offered this summer, your schedule is about choice. Select courses in your desired college major or diversify your interests by selecting a new language or humanities class. Regardless of your choice of courses, Hopkins' Summer University Program connects you with great minds. You have the opportunity to engage in discussions and study with academically talented students and Hopkins' own distinguished faculty. <https://www.jhu.edu/academics/summer-programs/>

**JULY EXPERIENCE DAVIDSON** From website: July Experience is a powerful pre-college summer academic program for rising high school juniors and seniors who are highly motivated, academically oriented, and self-disciplined. It takes place on the campus of Davidson College, one of the nation's very best liberal arts colleges. You will take two liberal arts courses taught by full-time Davidson faculty, live in residence halls with students from across the country and around the world, and participate in sessions about the college admission process, while getting prepared for college. July Experience courses carry no secondary school or college credit; however, a powerful summer academic experience can be a valuable addition to a college application and excellent preparation for college. Need-based scholarships are available. <https://www.davidson.edu/offices-and-services/july-experience>

**MARIST PRE-COLLEGE SUMMER PROGRAMS** From website: Attention current sophomores and juniors! Expand your academic and creative aspirations this summer at Marist College. Students entering their junior and senior year of High School as of Summer 2015 are invited to attend one of the Summer Institutes at Marist College - ranked one of the "Best 373 Colleges and Universities," and "25 Most Connected Campuses" by the Princeton Review. You'll learn from experienced professionals and talented faculty, while spending two to four weeks in your choice of location: the heart of the historic Hudson River Valley, the birthplace of the Renaissance, or both! You'll have several class sessions each day mixed with time to study, local excursions, day-long field trips and, of course, recreation. Living in dorms, eating in the cafeteria, studying in the state-of-the-art academic facilities, and enjoying either of the beautiful Marist campuses will provide you with a well-rounded college experience. Programs include: Italian, Studio Art, Business, Criminal Justice, Fashion, Sports Commentary, and Pre-Law. <http://www.marist.edu/summerinstitutes/programs.html>

**OXFORD LUMIERE EDUCATION:** The Topic-Focused Program offers pre-designed and pre-determined areas of research for Lumiere scholars while Individual Research Program offers scholars more flexibility in deciding their field and area of interest. The topics included in the Topic-Focused Program are designed according to the areas that were in high demand for the Individual Research Program, for which the spots are extremely competitive. Broadly, the Topic-Focused Program courses are for students who are looking for the opportunity to interact with and collaborate with other students while creating their own research paper. <https://www.lumiere-education.com/>

**RESEARCH MENTORSHIP PROGRAM UCSB** From website: RMP is a competitive, six-week summer program that engages qualified, high-achieving high school students from all over the world in interdisciplinary, hands-on, university-level research. Students will be paired up with a mentor (graduate student, postdoc, or faculty) and choose a research project from a large list of disciplines offered by the program each year. In addition to gaining a deep relationship with their mentor, they will learn about research techniques, gain insight into professional research-based opportunities, and mature their academic goals. The lecture series - GRIT talks - will connect students to some of the best minds among the UCSB research community who present on their ground-breaking research and innovative technology. Along with these academic benefits, the students will be immersed in university life and networked with equally ambitious and curious peers. <https://summer.ucsb.edu/programs/research-mentorship-program/overview>

**SUMMER AT CAL LUTHERAN** From website: Summer at CLU for High School Students is an opportunity for those who qualify to get a head start on college and a preview of what classes are like at the next level. <https://earth.callutheran.edu/summer/high-school/> **SUMMER DISCOVERY** From Summer Discovery in pre-college enrichment, middle school enrichment, community service and career focused internship programs. The program, run by the Musiker family, has directed award-winning, well supervised, educational teen summer programs for students for 47 years. Although the company offers a wide variety of quality programs around the world, to this day, it is still a family-owned and operated organization. Program options include studying at universities such as UCLA, University of Texas at Austin, Johns Hopkins, and Penn. Summer Discovery also has study abroad options in Italy and English. <http://www.summerdiscovery.com/>

**SUMMER SCHOLARS PROGRAM AT NOTRE DAME UNIVERSITY** From website: Summer Scholars participants spend two intense weeks in one of the programs offered--from archeology to psychology to Shakespearean performance. Each class is limited to 20 students, keeping the classes small and the personal attention from Notre Dame faculty high. The coursework is both rigorous and rewarding.

Students will complete work for their track outside designated class times, as they would in any college setting. Yet there is ample time to enjoy the social facets of college life, especially those unique to Notre Dame. Our participants praise the program for its capacity to bring them out of their comfort zone with challenging academics, as well as inspire and excite them by providing a taste of what college life can be in all aspects. Students are eligible to receive one college credit upon completion of a program track.

<http://precollege.nd.edu/summer-scholars/>

**SUMMER SCHOLARS PROGRAM AT TEMPLETON HONORS COLLEGE (EASTERN UNIV.)** From website: The Summer Scholars Program is designed for intelligent, gifted young men and women who aim to become not just successful employees, but fully human persons, as God intended. More specifically, this is an opportunity to sample a special kind of education—a kind that aspires not only to prepare its students for prosperous careers, but to investigate the meaning of a truly good life: a life of honest self-examination, delighting in what is True, Good, Beautiful, and formation into the image of Jesus Christ. For nine days students will live in residence on Eastern University’s campus with a limited group of peers, engaged in rigorous, college-level academics taught by Templeton’s own doctorate-certified professors. Students will enjoy one-to-one writing tutorials, guest speakers, a trip to Philadelphia or NYC, cultural events, and all this alongside a team of current Templeton students serving as their guides and mentors. Students will be awarded 3 college credits upon completion of this program (transferable to other colleges and universities). Courses have included classical authors such as Plato, Aristotle, Roman authors, Milton, Dante, and C.S. Lewis.

<https://templeton.eastern.edu/academics/summer-scholars-program>

**UConn MENTOR CONNECTION** From website: UConn Mentor Connection is a residential enrichment program held during the summer on the Storrs campus of the University of Connecticut, serving students entering the last two years of high school. The program is designed to provide rising juniors and seniors from diverse backgrounds with opportunities to participate in high-level creative projects and research investigations under the supervision of university mentors. Accomplished university professors and/or advanced graduate students host participants in their labs and studios and work with them on projects in shared areas of interest. Students and mentors become a community of scholars working together on important issues on the cutting edge of various fields of study. The mentorship experience allows high school students to take on the role of practicing professionals, experience real-world research and/or creative projects, enhance their awareness of their talent areas and career opportunities, and interact with students who share common areas of interest. College credit is an option at most mentorship sites. <http://mentor.education.uconn.edu/>

**CALIFORNIA POLYTECHNIC UNIVERSITY ARCHITECTURE SUMMER CAREER WORKSHOP** From website: The Architecture Department offers an intensive 4-week in-residence workshop designed for high school students considering architecture as a career or developing a design portfolio. The Workshop provides an in-depth view of the career through hands-on experience in studio design exercises, lectures, projects and field trips. Activities cover architectural design and history, computer applications, building science, structural engineering and site planning. Studios and lectures are taught by the faculty of the College of Architecture and Environmental Design. Education and career advising are integral elements of the program. Participating students live in residence halls where they become familiar with the dynamics of campus life. The program typically runs mid-June - mid July, and includes lodging, most meals, field trips and most materials.

**DIGIPEN INSTITUTE OF TECHNOLOGY SUMMER WORKSHOP** From website: Project Fun’s Summer Programs offer exciting learning experiences for students of all ages. These courses introduce students to a variety of fun and engaging topics in video game programming, fine arts and multimedia

production, game design, and engineering — all while reinforcing their knowledge of core academic subjects like math, physics, art, and writing. Students learn and create under the guidance of Project Fun's talented teaching staff, working alongside other students in their age group to complete hands-on projects that reinforce key concepts and encourage personal expression.

**THE LEON LEVY EXPEDITION TO ASHKELON** From website: The Leon Levy Expedition has been conducting large-scale excavations on the tale of ancient Ashkelon since 1985, thanks to the great generosity of Mr. Leon Levy and Ms. Shelby White of New York. Every summer from 1985 to 2000, Leon and Shelby visited Ashkelon during the excavation season, taking the trouble to meet the expedition staff and often working with dig volunteers and professional staff in the field. Whether you are studying archaeology, pursuing a career in the field or are looking for a fun and educational way to spend your summer, the Leon Levy Expedition to Ashkelon offers a well-rounded archaeology field school well suited to a variety of interests. <http://digashkelon.com/about>

**SAMBERG FAMILY HISTORY PROGRAM** From website: The Samberg Family History Program will engage you in a multi-faceted exploration of Jewish history and your family's past. We draw upon all of the resources at the Center for Jewish History: our world renowned collections of books, archival documents, photographs, artifacts, paintings, films, sound recordings, and textiles; our expert curators, archivists, and librarians; our technology offerings, knowledgeable historians, and caring educators. Based in the heart of New York City, we also take great advantage of our city's myriad important research institutions and historic sites. Working with expert teachers, scholars, archivists, curators, and genealogists, you will learn the skills you need to mine evidence of the past to answer your own questions: reading official records, letters, personal mementos, photographs, and material objects, and conducting and using oral interviews. We also recognize, though, that teachers are not the only ones with knowledge; all of us in the Samberg Program are both learners and teachers. We encourage discussion, debate, and collaboration. <http://www.cjh.org/p/63#application>

**SMITHSONIAN NATIONAL POSTAL MUSEUM INTERNSHIP** From website: Want to gain valuable skills and experience working in a museum? Apply for a Postal Museum Internship at the Smithsonian! Work on a relevant project, get one-on-one mentorship from staff, and they contribute to the museum's offerings. National Postal Museum Internships are based in the Collections, Curatorial, Education, Exhibits, and Library Departments, are offered during the spring, summer and fall semesters on a rolling basis. Please be aware that the internship does not offer a stipend.

**THOREAU COUNTRY TODAY: A SUMMER SOJOURN** From website: This eight day program is designed for students to learn and discuss how enduring and relevant Thoreau's greatest ideas are today. Students will enjoy the comfort and support of this homestay program at historic Concord, Massachusetts. Mornings students will gather at various indoor and outdoor locations to explore Thoreau's notion of "living deliberately" and how it may be applied to the challenges of life in the 21st century. Afternoons and two evenings will be spent seeing Walden Pond, Cambridge and Harvard University, Beacon Hill and other spots that help to identify Greater Boston as a center for ideas, music, art, and discovery. <http://www.thoreausociety.org/>

## SELF-GUIDED SUMMER ON-LINE LEARNING

**BUNIVERSE** Go onto Boston University's website to take classes, listen to lectures, and exponentially learn about an array of topics. <http://www.bu.edu/buniverse/>

**CATAPULT ENGINEERING ACADEMY** From Auburn University's website: CEA is an online, college-prep high school engineering curriculum developed and taught by Dr. Mark Conner. Dr. Conner is a mechanical engineer who has been teaching high school since 1996 and has 10 years' experience teaching undergraduate engineering courses. The curriculum is designed to mirror the first two years of collegiate engineering, in order to prepare students for the rigor of undergraduate engineering degree programs and provide them with the knowledge, training, and tools to excel as undergraduate engineering students. Learn more about Catapult Engineering Academy and register for courses at <https://www.catapultea.com/>

**EDUCATION-PORTAL.COM** From website: Our courses are engaging video summaries of textbook material. They are a fast, effective way to study for any subject and be better prepared for your next test. The lessons are short and concise, with lots of examples to help you master the material quickly. <http://study.com/academy/plans.html>

**MIT OPENCOURSEWARE** From website: Offering a portfolio of free MIT courses to a virtual community of learners around the world. Part of edX. <https://ocw.mit.edu/index.htm>

**OER COMMONS** From website: Worldwide learning network of shared teaching and learning materials made freely available online. <https://www.oercommons.org/>

**ONLINE EDUCATION DATABASE PUBLIC LECTURES AT PRINCETON** from website: Public Lectures at Princeton provides free and open access to a selection of lectures taught by distinguished teachers and scholars at Princeton University. <https://lectures.princeton.edu/>

**OPEN COURSES YALE** From website: Open Yale Courses provides free and open access to a selection of introductory courses taught by distinguished teachers and scholars at Yale University. <https://oyc.yale.edu/>

**OPENSTAX** From website: OpenStax believes that everyone has something to learn, and everyone has something to teach. Frustrated by the limitations of traditional textbooks and courses, Dr. Richard Baraniuk founded OpenStax (then Connexions) in 1999 at Rice University to provide authors and learners with an open space where they can share and freely adapt educational materials such as courses, books, and reports. Today, OpenStax CNX is a dynamic non-profit digital ecosystem serving millions of users per month in the delivery of educational content to improve learning outcomes. There are tens of thousands of learning objects, called pages, that are organized into thousands of textbook-style books in a host of disciplines, all easily accessible online and downloadable to almost any device, anywhere, anytime. <https://cnx.org/about>

**STANFORD EPGY AND PODCASTS** From website: EPGY is an ongoing research project at Stanford University dedicated to developing computer based multimedia courses in Mathematics, Physics, English, Computer Programming and other subjects. EPGY makes these privately available to students of high ability, and offers courses suitable for students of all ability levels through schools. <http://epgy.stanford.edu/about-us>

**TED.COM** From website: TED is a nonprofit devoted to spreading ideas, usually in the form of short, powerful talks (18 minutes or less). TED began in 1984 as a conference where Technology, Entertainment and Design converged, and today covers almost all topics — from science to business to global issues — in more than 100 languages. Meanwhile, independently run TEDx events help share ideas in communities around the world. <https://www.ted.com/>

**THE TEACHING COMPANY: THE GREAT COURSES** From website: We are proud to be partners with National Geographic, The Culinary Institute of America, and the Smithsonian. Together we are creating illuminating courses that bring you the best in lifelong learning <https://www.thegreatcourses.com/>

**KHAN ACADEMY** From website: You only have to know one thing. You can learn anything Students can be tutored on-line from topics ranging from all areas in Math, Science, SAT/ACT to computer programming. Do you want to learn how to do something new or brush up on your skills before starting back to school in the fall? This is your site. <https://www.khanacademy.org/>

## SELF-GUIDED TOURS

**THE STUDENT CONSERVATION ASSOCIATION** From website: From Rocky Mountain National Park to the Cumberland Island National Seashore, from Amistad National Recreation Area to the Blue Ridge Parkway public lands across the United States are in need of a little TLC. SCA's National Crews offer you a chance to visit places you've never seen before, camping with your crew members in the field to enjoy nature at its best. You'll be building trails, conserving vital habitats, and protecting natural resources for future generations. National Crews will also set you on the path to other SCA opportunities, like Trail Corps and Conservation Internships. <http://www.thesca.org/serve/national-crews>

**VISIONS SERVICE ADVENTURE** From website: Known as "The Last Frontier," Alaska has a coastline longer than all other states combined, it possesses more than half the world's glaciers and active volcanoes, and it's home to wilderness and snowcapped mountains that stretch to the horizon. VISIONS Alaska is based in a small Athabasca native village, where we work with community members on service projects that focus on local infrastructure and housing. We also take advantage of the spectacular surroundings with ice climbing, backpacking, and community explorations. <http://www.visionsserviceadventures.com/teen-summer-programs/alaska>

## STUDY ABROAD

**BERKLEE SPAIN SUMMER PERFORMANCE PROGRAM** From website: The Spain Summer Performance Program takes place at Berklee's campus in Valencia, Spain. The program will provide musicians with two weeks of comprehensive music performance instruction. You'll improve your performance, theory, production, and technology skills; spend time in our state-of-the-art recording studios; and learn and network in a multicultural environment. <https://www.berklee.edu/summer/programs/spain>

**CHOATE SUMMER STUDY ABROAD** From website: Stimulating courses are taught by native speakers in some of the world's most historically significant cities in China, France, Oman, or Spain. There are numerous excursions to museums, cultural centers, and historic sites, and students have the chance to have multi-week homestays with host families or at host institutions. Programs led and taught by Choate teachers, and students have the opportunity to accelerate as much as one year in language depending on their degree of improvement. <http://www.choate.edu/page.cfm?p=622>

**HILLSDALE HIGH SCHOOL STUDY ABROAD** From website: Rising high school juniors, seniors, and talented sophomores are invited to study with Hillsdale faculty in one of three European study abroad courses offering three undergraduate college credits. Courses are focused in the fields of English,

history, and classics, but are open to students of any future academic interest. England, France, and Italy are final course destinations. <http://www.hillsdale.edu/admissions/high-school>

**ROME: HISTORY, CULTURE, AND EXPERIENCE.** From website: This 12-day seminar will introduce students to the history and culture of the Eternal City, with a focus on the built environment. Notre Dame faculty in a range of fields, from art history and architecture to anthropology, will provide students with an immersive experience and guide students in their exploration of this fascinating city. Students will have the opportunity to visit many of Italy's most revered cultural treasures and participate in rich cultural and intellectual exchange. The newly renovated Notre Dame Rome Global Gateway on Via Ostilia, which is a stone's throw from the Colosseum, will serve as the home for lectures and discussions, while the city itself, with its rich assortment of monuments, museums and densely-textured, storied neighborhoods will serve as the students' true classroom. Students, along with Notre Dame Pre-College resident counselors and staff, will be the exclusive guests at a campus residence just a short walk from the Notre Dame Rome Global Gateway and near Piazza San Giovanni in Laterano, Rome. Students are eligible to receive one college credit upon completion of the program. The program is limited to 20 students who will be rising high school seniors by the time of the program. <http://precollege.nd.edu/study-abroad/>

**TRAVEL ACADEMY AT THE UNIVERSITY OF CHICAGO : EXPLORING THE CLASSICAL WORLD THROUGH GREEK DRAMA** From website: This unique interdisciplinary humanities course takes students to Greece where they have the extraordinary opportunity to study ancient Greek drama in its literary and social contexts. A series of excursions to sites related to the works they read, both within and outside Athens, supplement the core of the program on the island of Spetses. <https://summer.uchicago.edu/pre-college-students>
