

MET Professional Academy HIGH SCHOOL REDEFINED

Be part of an innovative program where you fast-forward into your future.

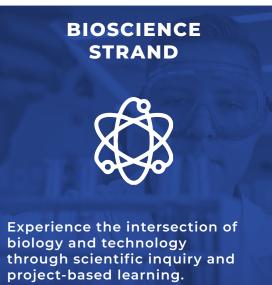

Tap into your passion and find a way to be the change. At the MET, students are free to work collaboratively as they are fully immersed in a professional culture, solving real-world problems, using industry-standard tools, and working alongside industry experts as mentors.

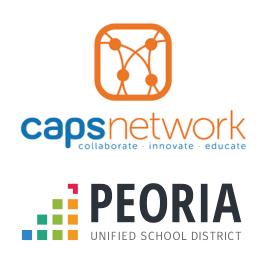

All MET course offerings are two class periods each day so that students can become immersed in collaborative work with peers and business partners.
