

When is the deadline for submitting your application for admissions to the AIM/IB Program at Ironwood High School?

The best time for students from the Peoria Unified schools to apply is before the students are registered for their high school classes at their elementary schools in December and January. We receive many of these applications between October and December and we will process them as the students apply for entrance into the program. Students accepted from district schools, who apply early, will be placed in the appropriate AIM / IB classes for the fall semester.

Students applying from outside the Peoria Unified School District boundaries are welcomed and should apply before March 1st. The applications which arrive after deadline may be accepted on a case by case basis. The student will require a variance form to be submitted with the IB application. These applications should be made as soon as possible so that we can provide the correct placement for the student.

Students do not generally enter the IB Program as juniors, without going through the Ironwood AIM program first. Exceptions may be made for a student who has completed a similar program or are transferring from another IB program.

We are always looking for qualified students that will benefit from the IB Programme. It is a strong academic program that will prepare the student for college.

If you have any questions about the IB Program, please do not hesitate to contact me!
