MET PROFESSIONAL ACADEMY—TECHNOLOGY SOLUTIONS

IN THIS PROGRAM, STUDENTS WILL:

- Realize their strengths and passions by exploring technology and cybersecurity fundamentals
- Gain knowledge and skills through hands-on, project-based learning
- Cultivate professional skills critical to success in all college and career endeavors
- Secure, protect and defend advanced networking infrastructure from penetration testing
- Develop advanced knowledge and skills to maintain security of mission-critical data and computer systems
- Install and troubleshoot various operating systems (Linux, Windows, Cisco, etc.).
- Gain industry experience working alongside IT professionals to complete authentic business projects
- Participate and compete in multiple international and national computer science competitions
- Professionally connect with business mentors from companies and organizations such as: American Express, Cisco, HackNet by BreakAway Games, ViaWest Technology, Arizona Cyber Threat Response Alliance and the Arizona Technology Council

APPLY NOW!
Download the application at:
www.peoriaunified.org/met

STEPS TO SUBMIT YOUR APPLICATION
