# HOW TO WRITE A COLLEGE APPLICATION ESSAY

---

## **1. OPEN STRONG**

Knowing how to start a college essay can create a strong opening paragraph that immediately captures the reader's interest. You want to make the admissions officer reading your essay curious about what you say next.

## **2. SHOW YOU CAN WRITE**

Colleges want to see that you have a command of the basics of good writing, which is a key component of success in college.

## **3. ANSWER THE PROMPT**

Admissions officers also want to see that the student can give a direct answer while sticking to a comprehensive narrative. When writing college essays, consider the point you want to make and develop a fleshed-out response that fits the prompt. Avoid force-fitting prewritten pieces. Approach every personal essay prompt as if it's your first.

## **4. STICK TO YOUR STYLE**

Writing college essays isn't about using flowery or verbose prose. Avoid leaning too heavily on the thesaurus to sound impressive. Choose a natural writing style that's appropriate for the subject matter. Also, avoid stressing about trying to write what you think colleges want to see. Learning how to draft a good essay for college is about showcasing who you are. Stay true to your voice. Keep in mind that authenticity is more important than anything else.

## **5. PROOFREAD**

Correct grammar, punctuation, and spelling are essential. Proofread several times after you've finished. Then ask a teacher, parent, or college English major to give it a quick read as well.

## **6. KEEP TRACK OF LENGTH**

Finally, admissions officers value succinctness. Remember to pay attention to the recommended essay length or word count.
